SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior is creating the DOI Social Networks system of records. The purpose of this system is to allow the Department of the Interior to interact with the public using third party or commercial social media applications. These applications facilitate the sharing of information and ideas between the Department of the Interior and the public. Many social media applications require users to register or provide information to utilize their services. While the Department of the Interior may use social media applications to connect with the public in an official capacity, information provided by an individual to register with the third party site is rarely shared with the Department. Information collected and stored by the social media applications is subject to the third party privacy policies posted on their Web sites. The Department of the Interior may receive contact information from the third party site for individuals who wish to have further contact with the Department for additional communications such as dissemination of information for an upcoming event, notification of an emergency or breaking news, or solicitation of feedback about a program. The Department may also receive user names or e-mails for individuals who have commented or submitted information on a Department of the Interior section on a social media Web site. The Department may also receive information indirectly from social media sites as part of specific programs or initiatives.

The Department may use social media applications to share information with the public, to collect ideas and comments submitted by the public, and to promote participation and collaboration with the public. A list of the Department of the Interior's Social Media presence can be found at: <http://www.doi.gov/news/Social-Media.cfm>. The information provided by the Department on these social media sites is also available on Department of the Interior public Web sites. If the Department is requesting feedback from the public through the use of a social media site, an alternative DOI e-mail address will also be provided so that the public may interact with the Department without having to use the social media site. When an individual submits an e-mail directly to the Department, the Department will maintain the individual's e-mail, and
