SUPPLEMENTARY INFORMATION: The Tribes have requested that the BIA take 25 acres of land in the City of Cascade Locks, Oregon, into trust on behalf of the Tribes. The Tribes would develop a resort and casino on the newly acquired trust land and lease adjacent lands (approximately 35 acres) from the Port of Cascade Locks for parking and other facilities related to the resort and casino development. The proposed casino project also would include a new interchange on Interstate 84 (I–84) and local transportation system improvements.

A range of project alternatives is considered in the DEIS, including: (1) The proposed Cascade Locks Resort and Casino Project, (2) a Hood River alternative, (3) a Warm Springs alternative, and (4) no action. The DEIS addresses the potential effects of each of these alternatives on geology and soils, land use, water resources, air quality, noise, plants and wildlife, endangered species, cultural resources, socioeconomic conditions (including environmental justice), transportation, public services, the visual environment, and hazardous wastes and materials. The DEIS examines the direct, indirect, and cumulative effects of each alternative on these resources and identifies mitigation measures to address adverse impacts.

SUPPLEMENTARY INFORMATION: The Tribe has requested that the BIA take into Federal trust 305 acres of land currently held in fee by the Tribe, on which the Tribe proposes to construct a hotel, casino, parking areas and other facilities. Food and beverage facilities would include three full service restaurants, a five-tenant food court, a buffet, four bars and a lounge. The hotel would include 200 rooms, a resort style pool area and a spa. Approximately 4,500 parking spaces would be provided. Regional access to the project site is via SR-99.
