II. Regulatory History

We did not publish a notice of proposed rulemaking for this rule. Under Title 5 of the United States Code (U.S.C.), Section 553(b)(A), the Coast Guard finds that this final rule is exempt from notice and public comment rulemaking requirements because these changes involve rules of agency procedure or practice. In addition, the Coast Guard finds that notice and comment procedures are unnecessary for this final rule under 5 U.S.C. 553(b)(B), as this rule consists of only technical and editorial corrections and these changes will have no substantive effect on the public. Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause

exists for making this final rule effective upon publication in the **Federal Register**.

III. Basis and Purpose

This final rule, which becomes effective on January 11, 2023, makes technical and conforming amendments to title 33, part 147, of the Code of Federal Regulations (CFR). These non-substantive changes are necessary to include safety zone regulations for non-mineral energy activities on the Outer Continental Shelf (OCS) in 33 CFR part 147. This rule does not create or change any substantive requirements.

This final rule is issued under the authority of 5 U.S.C. 552(a), 14 U.S.C. 102, and 43 U.S.C. 1333; DHS Delegation No. 00170.1(II)(90), Revision No. 01.3; and authorities listed at the end of this rule for the CFR part this rule amends.

IV. Discussion of the Rule

The Coast Guard is issuing technical and conforming amendments to the existing regulations in title 33, part 147, of the CFR. These technical amendments provide the public with accurate and current regulatory information as to where safety zones for certain OCS facilities will be located in the CFR, but do not change the effect of any Coast Guard regulations on the public. Our amendment to 33 CFR 147.10 is narrowly focused on allowing us to establish 33 CFR part 147 as the location for safety zones regulations for non-mineral energy resource OCS facilities.

On January 1, 2021, Congress enacted the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (NDAA), Public Law 116–283, 134 Stat. 3388. Section 9503 of the NDAA amended Section 4(a)(1) of the Outer Continental Shelf Lands Act (43 U.S.C. 1333(a)(1)) to specifically include non-mineral energy resources. The Coast Guard uses the affected statutory provisions as authority for issuing safety zone regulations around offshore facilities on the OCS. In § 147.10, this rule redesignates paragraphs (b) through (d) as paragraphs (c) through (e), makes a conforming amendment to an existing cross-reference in newly redesignated paragraph (c), and adds a new paragraph (b). New paragraph (b) explains that, for purposes of establishing safety zones under part 147, “OCS facility” includes non-mineral energy resource permanent or temporary structures. The rest of part 147 is unchanged by this technical amendment.
