

stakeholders achieve program goals. These approaches include tailored oversight, procedural flexibility, holistic approach, presumptive remedies, performance standards, use of innovative technologies, targeted data collection, and facility-lead corrective action. The first available supporting document, "Results-Based Approaches to Corrective Action: Tailored Oversight," focuses on implementing tailored oversight. It provides a recommended framework for project managers and owner/operators to develop an oversight plan tailored to facility-specific conditions. In the future, EPA plans to issue additional supporting documents that deal with other results-based approaches.

The official record for this notice will be kept in paper form. Accordingly, we will transfer all feedback and input received electronically into paper form and place them in the official record, which will also include all comments submitted directly in writing.
