

III. What is the Agency's authority for taking these actions?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or to cancel registered uses for a pesticide. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrant requests a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 3 of Unit II have requested that EPA waive the 180-day comment period. Accordingly, EPA is providing a 30-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

If the requests for voluntary cancellation and amendments to terminate uses are granted, the Agency intends to publish a final cancellation order in the **Federal Register**. In that order, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Tables 1 and 2 of Unit II.

Upon cancellation of the products identified in Table 2 of Unit II, the sale

and distribution of these products will be prohibited, except for export consistent with FIFRA section 17 or for proper disposal. Use of existing stocks would be permitted until exhausted.

EPA is proposing to allow use of existing stocks of chlorpyrifos products identified in Table 1 of Unit II as follows: The sale and distribution of existing stocks would be permitted through April 30, 2025. After that date, products identified in Table 1 would not be allowed to be sold or distributed, unless none of the terminated uses appears on the product's labeling.

Use of existing stocks would be permitted through June 30, 2025. After that date, products identified in Table 1 would be allowed to be used only for non-food uses to the extent permitted by the label.

Authority: 7 U.S.C. 136 *et seq.*
