AGENCY: Import Administration, International Trade Administration, Department of Commerce

DATES: *Effective Date:* December 14, 2010.

FOR FURTHER INFORMATION CONTACT: Myrna Lobo or Justin Neuman, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-2371 or (202) 482-0486, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 20, 2010, the Department of Commerce (the Department) published the preliminary results of the administrative review of the countervailing duty order on certain hot-rolled flat-rolled carbon-quality steel products from Brazil for the period January 1, 2008, through December 31, 2008. *See Certain Hot-Rolled Flat-Rolled Carbon Quality Steel Products From Brazil: Preliminary Results of Countervailing Duty Administrative Review*, 75 FR 64700 (October 20, 2010). This review covers Usinas Siderurgicas de Minas Gerais S.A. (USIMINAS) and its subsidiary, Companhia Siderurgica Paulista (COSIPA), producers/exporters of the subject merchandise to the United States.

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(h)(1), the Department shall issue final results in an administrative review of a countervailing duty order within 120 days after the date on which notice of the preliminary results was published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the time limit, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 120-day period up to 180 days.

The final results of this countervailing duty administrative review are currently

due February 17, 2011. Pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we determine that it is not practicable to complete the results of this review within the original time limit. The Department had to request additional information from USIMINAS/COSIPA and the Government of Brazil after the preliminary results. Consequently, the Department needs additional time to analyze this information and to consider comments filed by the parties. In accordance with section 751(a)(3)(A) of the Act, the Department has decided to extend the time limit for the final results from 120 days to 180 days; the final results will now be due no later than April 18, 2011.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: December 7, 2010.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Certain Steel Nails From the People's Republic of China: Extension of Time Limit for the Final Results of the First Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* December 14, 2010.

FOR FURTHER INFORMATION CONTACT: Emeka Chukwudebe or Matthew Renkey, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-0219 or (202) 482-2312 respectively.

Background

On September 15, 2010, the Department of Commerce ("Department") published in the **Federal Register** the *Preliminary Results* of the antidumping duty order on certain steel nails ("steel nails") from the People's Republic of China ("PRC").¹ Subsequent

to the publication of the *Preliminary Results*, the Department extended the deadlines for submission of surrogate values, rebuttal comments and case briefs.² The period of review (“POR”) is January 23, 2008, through July 31, 2009. The final results are currently due no later than January 13, 2011.

Extension of Time Limit For the Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“Act”), requires that the Department issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the deadline for the final results to a maximum of 180 days after the date on which the preliminary results are published.

The Department finds that it is not practicable to complete the final results within this time limit because the Department is in the process of conducting the verification of a mandatory respondent and needs additional time to complete this verification and issue its final determination. In addition, the extension of the briefing schedule for surrogate values and company-specific issues in this proceeding necessitates additional time for the Department to make its final determination. As a result, the Department finds that it is not practicable to complete verification, to review the surrogate value data, and to analyze the case brief comments within the scheduled time limit. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is fully extending the time for the completion of the final results of this review to March 14, 2011.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 8, 2010.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUMMARY: On August 10, 2010, the Department of Commerce (the Department) published its preliminary results in the antidumping duty administrative review of purified carboxymethylcellulose (CMC) from the Netherlands. See *Purified Carboxymethylcellulose From the Netherlands; Preliminary Results of Antidumping Duty Administrative Review*, 75 FR 48310 (August 10, 2010) (*Preliminary Results*). The merchandise covered by the order is purified CMC, as described in the “Scope of the Order” section of this notice. The period of review (POR) is July 1, 2008, through June 30, 2009. We afforded interested parties an opportunity to comment on the *Preliminary Results*. We received comments from interested parties on October 22, 2010, and, in light of these comments, have made changes to our margin calculations. Thus, the final results differ from those published in the Department’s *Preliminary Results*. The final weighted-average dumping margins for the reviewed firms are listed below in the section entitled “Final Results of the Review.”

DATES: *Effective Date:* December 14, 2010.

SUPPLEMENTARY INFORMATION:

Background

On August 10, 2010, the Department published the preliminary results of the administrative review of the antidumping duty order on purified CMC from the Netherlands. See *Preliminary Results* at 48310. The respondents under review are Akzo Nobel Functional Chemicals B.V. (ANFC) and CP Kelco B.V. (CP Kelco). The petitioner in this proceeding is Aqualon Company, a unit of Hercules

Inc. We invited interested parties to comment on the *Preliminary Results* following the release of all verification reports. See *Preliminary Results* at 48318.

On September 29, 2010, the Department released the home-market sales verification report for ANFC and, on October 13, 2010, we released the U.S. sales verification report for this company. We did not verify the responses of CP Kelco in the current review.

On October 22, 2010, ANFC submitted a case brief and CP Kelco submitted a letter in lieu of a case brief. The petitioner did not file any comments on the preliminary results of review and no party requested a hearing concerning the review.

Scope of the Order

The merchandise covered by the order is all purified CMC, sometimes also referred to as purified sodium CMC, polyanionic cellulose, or cellulose gum, which is a white to off-white, non-toxic, odorless, biodegradable powder, comprising sodium CMC that has been refined and purified to a minimum assay of 90 percent. Purified CMC does not include unpurified or crude CMC, CMC Fluidized Polymer Suspensions, and CMC that is cross-linked through heat treatment. Purified CMC is CMC that has undergone one or more purification operations which, at a minimum, reduce the remaining salt and other by-product portion of the product to less than ten percent. The merchandise subject to the order is classified in the Harmonized Tariff Schedule of the United States at subheading 3912.31.00. This tariff classification is provided for convenience and customs purposes; however, the written description of the scope of the order is dispositive.
