Background

The Commission instituted these investigations effective June 26, 2020, following receipt of petitions filed with the Commission and Commerce by The Mosaic Company, Plymouth, Minnesota. The Commission scheduled the final phase of the investigations following notification of preliminary determinations by Commerce that imports of phosphate fertilizers from Morocco and Russia were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)). Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of December 8, 2020 (85 FR 79033). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its hearing through written testimony and video conference on February 9, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to § 705(b) of the Act (19 U.S.C. 1671d(b)). It completed and filed its determinations

in these investigations on March 31, 2021. The views of the Commission are contained in USITC Publication 5172 (March 2021), entitled *Phosphate Fertilizers from Morocco and Russia: Investigation Nos. 701–TA–650–651 (Final)*.

SUPPLEMENTARY INFORMATION: The National Defense Authorization Act (NDAA) of 2019 was enacted on August 13, 2018. The NDAA helped shape Transition Assistance Program-related activities. The DOD is now required to provide individualized pre-separation counseling no later than 365 days before a service member's release from the service and the Act also required changes to the employment related courses provided by VETS. To meet new NDAA requirements, additional data fields were added to the DD-2648 separation form. The Department of Labor (DOL) wishes to receive pertinent data regarding employment-related outcomes that have been added to the separation form. Some of these additional data fields include: Military installation of separation; initial counseling and post-separation goal setting information; "warm handover"

data regarding a non-career ready individual; and the commanding officer's transition signature and date. It is the intent through this SORN amendment that DOL will be able to collect this data for the purposes of: Ensuring that a warm handover is occurring when necessary; that the appropriate individuals within the American Job Center (AJC) network are being contacted; provide feedback to DOD if warm handovers are not occurring in certain geographic areas or installations; conduct analysis by individual military base; and identify personal goals to measure achievement of those goals. The specific data fields requested under this modification are: Warm Handover Type; Warm Handover Organization; Warm Handover Post-Transition Location; Warm Handover Address; Military Installation; Phone Number; Date Completed Initial Counseling; Post-Transition Goals; Completed Resume or Employment Verification; Completed an Individual Training Plan; and All Counseling Documents in Order; and Commander Signature Date.
