SUPPLEMENTARY INFORMATION:

Reclamation is proposing to approve a new Recreation Master Plan for Reach 11, managed for recreational purposes by the PRLD. The current master plan was approved in 1987. The City and Reclamation determined a comprehensive planning effort for a new master plan should be carried out, due to the major population growth that has

occurred and future growth anticipated for the area. This effort included conducting a recreation needs assessment to inventory existing facilities in the vicinity of Reach 11, and evaluating needs based upon established park standards, existing capacity, and public interest in or opposition to various recreation uses. The purpose and need for a new Recreation Master Plan is to optimize recreational use of Reach 11 based upon the needs of the City and community, while ensuring compatibility with the primary flood control function of Reach 11. A master plan would accommodate and respect the full range of current and future recreation demands of this growing area of Phoenix, Arizona. The draft EIS considers three alternative master plan scenarios. All three provide a level of development established for a City district park. Under the Proposed Action, high-demand recreation needs would be balanced with passive recreation uses and maintenance of quality habitat areas. Two other alternative action alternatives are considered: one that would provide less active recreation-oriented development, and that emphasizes passive recreation-oriented activities (Alternative 1), and one that would maximize development of active-recreation oriented recreation facilities (Alternative 2). The No Action Alternative assumes the existing 1987 master plan, (which does not meet current PRLD district park standards), would continue to be implemented. The alternative ultimately selected and implemented is expected to be developed in phases by PRLD, as funding becomes available.
