Interested persons are permitted to file written statements before the meeting. To the extent that time permits, and upon advance written request to the person listed under **FOR FURTHER INFORMATION CONTACT**,

interested persons may be permitted by the Chair of the FIFRA SAP to present oral statements at the meeting. The request should identify the name of the individual making the presentation, the organization (if any) the individual will represent, and any requirements for audiovisual equipment (e.g., overhead projector, 35 mm projector, chalkboard). There is no limit on the extent of written comments for consideration by the Panel, but oral statements before the Panel are limited to approximately 5 minutes. The Agency also urges the public to submit written comments in lieu of oral presentations. Persons wishing to make oral and/or written statements at the meeting should contact the person listed under **FOR FURTHER INFORMATION CONTACT** and submit 30 copies of their presentation and/or remarks to the Panel. The Agency encourages that written statements be submitted before the meeting to provide Panel Members the time necessary to consider and review the comments.

II. Background

A. Purpose of the Meeting

In April 2000, the EPA, Office of Pesticide Programs (OPP), met with the SAP to present a progress report on its initiative to revise the ecological assessment process for pesticides. This included an update regarding the progress of the initiative and corresponding Panel recommendations on the approach. A key component of the April 2000 meeting was an overview of the conceptual risk assessment model proposed by OPP. Since the meeting, OPP has conducted a generic case study, which incorporated many of the comments and recommendations by the SAP. OPP is meeting with the SAP again to review this generic case study and is seeking their suggestions for improvement.

B. Panel Report

The Agency anticipates that the Panel's report of their recommendations will be available approximately 60 days after the meeting. The Panel's report will be posted on the FIFRA SAP web site or may be obtained by contacting the Public Information and Records Integrity Branch at the address or telephone number listed in Unit I. of this document.

Atrazine; Availability of Preliminary Risk Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of documents that were developed as part of EPA's pilot public participation process for making reregistration eligibility decisions for the organophosphate and certain other, non-organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary human health risk assessment and

related documents for atrazine. This notice also starts a 60-day public comment period for the preliminary risk assessment. Comments are to be limited to issues directly associated with the one pesticide that has risk assessment documents placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the preliminary risk assessment, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency cautions that risk assessments at this stage are preliminary assessments only and that further refinements of the risk assessments may be appropriate for this pesticide. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

DATES: Comments, identified by docket control number OPP-34237 for Atrazine must be received on or before April 16, 2001.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the

SUPPLEMENTARY INFORMATION. To ensure proper receipt by EPA, it is imperative that you identify the docket control number for atrazine, OPP-34237, in the subject line on the first page of your response.

8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. Background

EPA is making available preliminary risk assessments that have been developed as part of EPA's pilot process for making reregistration eligibility decisions for the organophosphate and other pesticides and for tolerance reassessments consistent with the FFDCA, as amended by the FQPA. The Agency's preliminary human health risk assessment and other related documents for atrazine are available in the individual pesticide docket. As additional comments, reviews, and risk assessment modifications become available, these will also be docketed for atrazine.

The Agency cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessment may be appropriate for atrazine. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

As the preliminary ecological risk assessment for atrazine is completed and registrants complete a 30-day review period to identify possible computational or other clear errors in the risk assessment, this risk assessment and registrant responses will be placed in the individual pesticide docket. A notice of availability for subsequent assessments will appear in the **Federal Register**.

The Agency is providing an opportunity, through this notice, for interested parties to provide written comments and input to the Agency on the preliminary risk assessment for the chemical specified in this notice. Such comments and input could address, for example, the availability of additional

data to further refine the risk assessment, such as percent crop treated information or submission of residue data from food processing studies, or could address the Agency's risk assessment methodologies and assumptions as applied to this specific chemical. Comments should be limited to issues raised within the preliminary risk assessment and associated documents. EPA will provide other opportunities for public comment on other science issues associated with the pesticide tolerance reassessment program. Failure to comment on any such issues as part of this opportunity will in no way prejudice or limit a commenter's opportunity to participate fully in later notice and comment processes. All comments should be submitted by April 16, 2001 using the methods in Unit I. of the

SUPPLEMENTARY INFORMATION. Comments will become part of the Agency record for atrazine.
