Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need

not be served on persons other than the Applicant.

As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protest do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed dockets(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF10-13-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Planned Mid-South Expansion Project and Request for Comments on Environmental Issues

August 13, 2010.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Mid-South Expansion Project (MSEP) involving construction and operation of facilities by Transcontinental Gas Pipe Line Company, LLC (Transco) in Coosa, Randolph, Dallas, and Marengo Counties, Alabama; Gaston, Rowan, Davidson, and Cleveland Counties, North Carolina; Walton, Coweta, and Henry Counties, Georgia; and Spartanburg County, South Carolina. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the **scoping period will close on September 13, 2010.**

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Transco is proposing to construct and operate five new pipeline loops,¹ construct one new compressor station, add compression at two existing compressor stations, and perform other modifications to five compressor stations. The MSEP would provide about 451 million standard cubic feet of natural gas per day to Transco's existing mainline system from the Clean Energy LNG import terminal currently under construction in Pascagoula, Mississippi, with existing capacity on Transco's Mobile Bay Lateral, down to existing Compressor Station 85. According to Transco, its project would expand delivery capacity on its existing pipeline system to growing markets in the east as far downstream as Rockingham County, North Carolina.

The MSEP would consist of the following facilities:

- Five pipeline loops located in Coosa and Randolph Counties, Alabama, and Gaston, Rowan and Davidson Counties, North Carolina;
- One new compressor station, Station 95, to be located in Dallas County, Alabama;
- Additional new compression at two existing compressor stations:
 - Station 90 in Marengo County, Alabama; and
 - Station 125 in Walton County, Georgia;
- Modifications at the following existing compressor stations:
 - Station 105 in Coosa County, Alabama;
 - Station 115 in Coweta County, Georgia;
 - Station 120 in Henry County, Georgia;
 - Station 140 in Spartanburg County, South Carolina; and
 - Station 145 in Cleveland County, North Carolina.

The planned loops would be constructed with 42-inch-diameter steel pipe and would have a combined total length of about 22.6 miles.

¹ A pipeline loop is constructed parallel to an existing pipeline to increase capacity.
