BILLING CODE 4710-11-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Determinations Under the African Growth and Opportunity Act

AGENCY: Office of the United States Trade Representative.

ACTION: Notice.

SUMMARY: The United States Trade Representative (USTR) has determined

that Cameroon has adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents in connection with shipments of textile and apparel articles and has implemented and follows, or is making substantial progress toward implementing and following, the customs procedures required by the African Growth and Opportunity Act (AGOA). Therefore, imports of eligible products from Cameroon qualify for the textile and apparel benefits provided under the AGOA.

DATES: Effective March 1, 2002.

FOR FURTHER INFORMATION CONTACT:

Chris Moore, Director for African Affairs, Office of the United States Trade Representative, (202) 395-9514.

SUPPLEMENTARY INFORMATION: The AGOA (Title I of the Trade and Development Act of 2000, Pub. L. 106-200) provides preferential tariff treatment for imports of certain textile and apparel products of beneficiary sub-Saharan African countries. The textile and apparel trade benefits under the AGOA are available to imports of eligible products from countries that the President designates as "beneficiary sub-Saharan African countries," provided that these countries (1) have adopted an effective visa system and related procedures to prevent unlawful transshipment and the use of counterfeit documents, and (2) have implemented and follow, or are making substantial progress toward implementing and following, certain customs procedures that assist the Customs Service in verifying the origin of the products.

In Proclamation 7350 (Oct. 2, 2000), the President designated Cameroon as a "beneficiary sub-Saharan African country." Proclamation 7350 delegated to the United States Trade Representative the authority to determine whether designated countries have met the two requirements described above. The President directed the USTR to announce any such determinations in the **Federal Register** and to implement them through modifications of the Harmonized Tariff Schedule of the United States (HTS). Based on actions that Cameroon has taken, I have determined that Cameroon has satisfied these two requirements.

Accordingly, pursuant to the authority vested in the USTR by Proclamation 7350, U.S. note 7(a) to subchapter II of chapter 98 of the HTS and U.S. note 1 to subchapter XIX of chapter 98 of the HTS are each modified by inserting "Cameroon" in alphabetical sequence in the list of countries. The foregoing modifications to the HTS are

effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after the effective date of this notice. Importers claiming preferential tariff treatment under the AGOA for entries of textile and apparel articles should ensure that those entries meet the applicable visa requirements. *See Visa Requirements Under the African Growth and Opportunity Act* 66 FR 7837 (2001).

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement; San Joaquin County, CA

AGENCY: Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be

prepared for a proposed highway project in San Joaquin County, California.

FOR FURTHER INFORMATION CONTACT:

Michael G. Ritchie, Division Administrator, Federal Highway Administration, California Division, 980 Ninth St., Suite 400, Sacramento, California 95814-2724.

SUPPLEMENTARY INFORMATION:

The FHWA, in cooperation with the California Department of Transportation (Caltrans), will prepare an Environmental Impact Statement (EIS) on a proposal to improve State Route (SR) 99 in San Joaquin County, California. The proposed improvement would involve widening SR 99 from four lanes to six lanes from 0.6 kilometers north of Arch Road to 0.2 kilometers south of SR 4 West, in Stockton, San Joaquin County, California. Depending on the alternative selected, this project proposes to also remove the existing South Stockton over-crossing (#29-156) and the Clark Drive "button hook" ramps. The project would evaluate the feasibility of eliminating existing freeway access at the Farmington Road (SR 4 East) interchange and constructing frontage roads between Farmington Road (SR 4 East) and Mariposa Road to maintain continuity through the SR 4 East system. The proposed project would extend Netherton Avenue to Mariposa Road. It would reconstruct the Farmington Road (SR 4 East), Mariposa Road, and Charter Way interchanges and replace all existing bridges within the project limits to meet width and vertical clearance standards with provisions for the ultimate eight-lane freeway concept.

Alternatives under consideration include (1) taking no action, (2) widening into the median leaving a median that would vary between 3.8 meters and 7.1 meters, (3) widening into the median and to the outside leaving a median that would vary from 7.1 meters to 10.8 meters and, (4) reconstructing SR 99 to full standards with an 18-meter median.

Letters describing the proposed action and soliciting comments will be sent to the appropriate federal, state, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A public hearing will be held. Public notice will be given of the time and place of the hearing. The draft EIS will be available for public and agency review and comment before the public hearing.

To ensure that all concerns and issues related to this proposed action are addressed and identified, comments and suggestions are invited from all
