

standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under **ADDRESSES**. This proposed rule involves the establishment of a safety zone. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

SUPPLEMENTARY INFORMATION:

A. Background

Department of Defense Inspector General Audit Report No. D02009-005, titled Controls Over the Contractor Common Access Card (CAC) Life Cycle, was performed to determine whether Government controls were in place over contractor CACs. A CAC is the DoD term for a Personal Identity Verification (PIV) card. A PIV card is required in order to gain access to a Federal facility. The most prevalent issue of the audit report, and the one that the Councils are undertaking with this case, was that the

CACs were not adequately accounted for after contract performance.

The Councils are proposing to amend the FAR by inserting new paragraphs (d)(1) and (2) under section 4.1301, Policy. Paragraph (d)(1) will provide policy on recovering PIVs. The text in paragraph (d)(1) states that agency procedures shall ensure that Government contractors account for all forms of Government-provided identification issued to Government contractors under a contract, and return such identification to the issuing agency at the earliest of any of the following, unless otherwise determined by the agency: when no longer needed for contract performance; upon completion of a contractor employee's employment; upon contract completion or termination. The text in paragraph (d)(2) states that the contracting officer may delay final payment under a contract if the contractor fails to comply with these requirements.

The Councils are also proposing to modify FAR clause 52.204-9, Personal Identity Verification of Contractor Personnel to be consistent with Part 4.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The Councils do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the requirements of the actions required and the clause are not significantly burdensome. Currently, it is a common business practice to have procedures in place to revoke/return access cards when no longer in use by the contractor. An Initial Regulatory Flexibility Analysis has, therefore, not been performed. We invite comments from small businesses and other interested parties. The Councils will consider comments from small entities concerning the affected FAR Parts 4 and 52 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.* (FAR case 2009-027), in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the proposed changes to the FAR do not impose information collection requirements that require the approval of the Office of Management

and Budget under 44 U.S.C. Chapter 35, *et seq.*

- (i) When no longer needed for contract performance.
- (ii) Upon completion of a contractor employee's employment.
- (iii) Upon contract completion or termination.

(2) The contracting officer may delay final payment under a contract if the contractor fails to comply with these requirements.

PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

3. Amend section 52.204-9 by:
a. Revising the date of the clause;
b. Redesignating paragraph (b) as paragraph (d), and adding new paragraphs (b) and (c); and revising the newly designated paragraph (d).

- (2) Upon completion of the Contractor employee's employment.
- (3) Upon contract completion or termination.

(c) The contracting officer may delay final payment under a contract if the contractor fails to comply with these requirements.

(d) The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts when the subcontractor is required to have routine physical access to a Federally-controlled facility and/or routine access to a Federally-controlled information system.

48 CFR Parts 904, 952 and 970

RIN 1991-AB85

Acquisition Regulation: Access to and Ownership of Records

AGENCY: Department of Energy.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Energy (DOE) is proposing to amend the Department of Energy Acquisition Regulation (DEAR) to revise the applicability and the policies and procedures involving the access to and ownership of records. Much work at DOE facilities is performed by contractor and subcontractor personnel and involves hazardous materials or the possibility of exposure to radioactive materials. It is necessary for the contractors and subcontractors to maintain extensive records for the Government involving these workers and processes, in particular, personnel; facility; occupational safety and health; environment; and medical records. DOE is proposing to amend these clauses for consistent inclusion in all applicable contracts, not just management and operating (M&O) contracts, based on the type of work being performed, to ensure preservation and Government ownership of records. Additionally, the proposed revisions address
