The LDIB utilizes a database known as Laboratory Information and Study Audit (LISA) to aid them in targeting future inspections and tracking and documenting historical inspections. LISA maintains records of test substance chemicals and their metabolites, the registrants and sponsors of these chemicals, and the laboratories employed by the sponsors to test these chemicals. LISA also maintains EPA inspection findings, the identity of the inspection team, and the dates the inspection was conducted. LISA also aids the branch in generating end of year reports to the branch chief and correspondence.
