

112–239, January 2, 2013). The revised statute simplifies the funding formula, and therefore decreases the data collection burden for Section 8002 applicants, with the goal of enabling the Department to make payments to LEAs more quickly. However, because the statutory change is retroactive to include payments for FY 2010, the Impact Aid Program (IAP) must recalculate its payments to all eligible LEAs for FYs 2010–2013. The applications previously submitted for those fiscal years' funds contain only part of the data required under the new formula. In order to collect the new data required by the formula, IAP requests approval of revised versions of Tables 3 and 4 of the application. For the FY 2014 grant application, LEAs have not yet submitted applications, thus IAP must collect all data needed under the new formula with a revised application package. The FY 2014 application package requires fewer data elements overall than the previous application.

Notice of Public Meeting of the Interagency Steering Committee on Radiation Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: The Environmental Protection Agency (EPA) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on May 1, 2013 in Washington, DC. The purpose of ISCORS is to foster early resolution and coordination of regulatory issues associated with radiation standards. Member agencies include the EPA; Nuclear Regulatory Commission; Department of Energy; Department of Defense; Department of Transportation; Department of Homeland Security; Department of Labor's Occupational Safety and Health Administration; and the Department of Health and Human Services. Observer agencies include the Office of Science and Technology Policy; Office of Management and Budget; and the Defense Nuclear

Facilities Safety Board, as well as representatives from the States of Arizona and Pennsylvania. ISCORS objectives are: (1) To facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) to promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) to promote completeness and coherence of federal standards for radiation protection; and (4) to identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. This is the one ISCORS meeting out of four held each year that is open to all interested members of the public. There will be time on the agenda for members of the public to provide comments. Summaries of previous ISCORS meetings are available at the ISCORS Web site, www.iscorg.org. The final agenda for the May 1st meeting will be posted on the Web site shortly before the meeting.

DATES: The meeting will be held on May 1, 2013, from 1:00 pm to 4:00 pm.

ADDRESSES: The ISCORS meeting will be held in Room 152 at the EPA building located at 1310 L Street NW., in Washington, DC. Attendees are required to present a photo ID such as a government agency photo identification badge or valid driver's license. Visitors and their belongings will be screened by EPA security guards. Visitors must sign the visitors log at the security desk and will be issued a visitors badge by the security guards to gain access to the meeting.

FOR FURTHER INFORMATION CONTACT: Rafaela Ferguson, Radiation Protection Division, Office of Radiation and Indoor Air, Mailcode 6608J, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; telephone 202–343–9362; fax 202–343–2304; email address ferguson.rafaela@epa.gov.

SUPPLEMENTARY INFORMATION: Pay parking is available for visitors at the Colonial parking lot next door in the garage of the Franklin Square building. Visitors can also ride metro to the McPherson Square (Blue and Orange Line) station and leave the station via the 17th Street exit. Walk two blocks north on 14th Street to L Street. Turn

right at the corner of 14th and L Streets. EPA's 1310 L Street building is towards the end of the block on the right. Visit the ISCORS Web site, www.iscorg.org for more detailed information.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it

displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before June 10, 2013. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Judith B. Herman, Federal Communications Commission, via the Internet at Judith-b.herman@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418–0214.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0261.

Title: Section 90.215, Transmitter

Measurements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 174,661 respondents; 369,495 responses.

Estimated Time per Response: .033 hours.

Frequency of Response: Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. section 303(f) of the Communications Act of 1934, as amended.

Total Annual Burden: 12,193 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this expiring information collection after this comment period to obtain the full, three year clearance from the Office of Management and Budget (OMB). The Commission is requesting approval for an extension (no change in the recordkeeping). The Commission is reporting a 1,306 hour burden reduction adjustment. This is due to fewer recordkeepers and thus a reduction in the overall burden.

Section 90.215 requires station licensees to measure the carrier frequency, output power, and modulation of each transmitter

authorized to operate with power in excess of two watts when the transmitter is initially installed and when any changes are made which would likely affect the modulation characteristics. Such measurements, which help ensure proper operation of transmitters, are to be made by a qualified engineering measurement service, and are required to be retained in the station records, along with the name and address of the engineering measurement service, and the name of the person making the measurements.

The information is normally used by the licensee to ensure that equipment is operating within prescribed tolerances. Prior technical operation of transmitters helps limit interference to other users and provides the licensee with the maximum possible utilization of equipment.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
