

SOCIAL SECURITY ADMINISTRATION**20 CFR Part 404****[Regulations No. 4]****RIN 0960-AF93****Extension of the Expiration Date for Several Body System Listings****AGENCY:** Social Security Administration (SSA).**ACTION:** Final rule.

SUMMARY: We adjudicate claims at the third step of our sequential evaluation process for evaluating disability using the Listing of Impairments (the Listings) under the Social Security and Supplemental Security Income (SSI) programs. This final rule extends until July 1, 2005, the date on which several body system listings will no longer be effective.

We have made no revisions to the medical criteria in these listings; they remain the same as they now appear in the Code of Federal Regulations. This extension will ensure that we continue to have medical evaluation criteria in the listings to adjudicate claims for disability based on impairments in these body systems at step three of our sequential evaluation process.

EFFECTIVE DATE: This final rule is effective June 20, 2003.

Electronic Version: The electronic file of this document is available on the date of publication in the **Federal Register** on the Internet site for the Government Printing Office at http://www.access.gpo.gov/su_docs/aces/aces140.html. It is also available on the Internet site for SSA (i.e., Social Security Online) at <http://www.socialsecurity.gov/regulations>.

SUPPLEMENTARY INFORMATION: We use the Listings in appendix 1 to subpart P of part 404 at the third step of the sequential evaluation process to evaluate claims filed by adults and children for benefits based on disability under the Social Security and SSI programs. The Listings are divided into parts A and B. We use the criteria in part A to evaluate the impairments of adults. We first use the criteria in part

B to evaluate impairments of children. If the criteria in part B do not apply, then we will apply the medical criteria in part A.

In this final rule, we are extending until July 1, 2005, the date on which several body system listings will no longer be effective, in order to allow sufficient time for us to revise them. These body systems are:

Growth Impairment (100.00)
Special Senses and Speech (2.00 and 102.00)
Respiratory System (3.00 and 103.00)
Cardiovascular System (4.00 and 104.00)
Digestive System (5.00 and 105.00)
Genito-Urinary System (6.00 and 106.00)
Hemic and Lymphatic System (7.00 and 107.00)
Skin (8.00)
Endocrine System (9.00 and 109.00)
Multiple Body Systems (110.00)
Neurological (11.00 and 111.00)
Mental Disorders (12.00 and 112.00)
Neoplastic Diseases, Malignant (13.00 and 113.00)
Immune System (14.00 and 114.00)

As a result of medical advances in disability evaluation and treatment, and program experience, we periodically review and update the Listings. We are extending the current expiration date for these Listings because we will not complete revised listings criteria for these body systems by the current expiration date. We are currently in the process of revising these body system listings. Since we last extended the expiration date of the listings, we have published several notices of proposed rulemaking (or advance notices of proposed rulemaking) proposing to revise the criteria of the listings in several body systems. We intend to publish proposed and final rules for the listings in each body system as expeditiously as possible, however, it will not be possible to do so by July 2, 2003, the current expiration date.

In final rules published on June 28, 2001 (66 FR 34361), we extended to July 2, 2003 the date on which the listings for the following body systems would no longer be effective: Growth Impairment; Musculoskeletal System; Special Senses and Speech; Cardiovascular System; Digestive System; Genito-Urinary System; Hemic and Lymphatic System; Skin; Endocrine System; Multiple Body Systems (110.00); Neurological; Mental Disorders; Neoplastic Diseases, Malignant; and Immune System. On June 28, 2002, we published final rules extending until July 2, 2003 the date on which the respiratory body system

listings will no longer be effective (67 FR 43537). Until we publish revised language for each body system listings, the current listings remain valid for our program purposes.

On November 19, 2001, we published revised listings for the musculoskeletal body system (1.00 and 101.00) (66 FR 58010). The listings for the musculoskeletal body system will no longer be effective on February 19, 2009, unless they are extended or revised and promulgated again (66 FR at 58037). The expiration date for the musculoskeletal body system listings is not affected by this final rule. In addition, on June 19, 2000, we published final rules establishing a separate listing (Listing 10.06) for evaluating non-mosaic Down Syndrome in adults, and created a multiple body system listing section in the Part A listings. (65 FR 31800). The Part A multiple body system listings will no longer be effective on June 19, 2008 (65 FR at 31802). The expiration date for the listing in this body system also is not affected by this final rule.

Regulatory Procedures*Justification for Final Rule*

Pursuant to section 702(a)(5) of the Social Security Act, 42 U.S.C. 902(a)(5), we follow the Administrative Procedure Act (APA) rulemaking procedures specified in 5 U.S.C. 553 in the development of regulations. The APA provides exceptions to its notice and public comment procedures when an agency finds there is good cause for dispensing with such procedures on the basis that they are impracticable, unnecessary, or contrary to the public interest. We have determined that, under 5 U.S.C. 553(b)(B), good cause exists for dispensing with the notice and public comment procedures for this rule. Good cause exists because this final rule only extends the date on which these body system listings will no longer be effective. It makes no substantive changes to those listings. The current regulations expressly provide that listings may be extended, as well as revised and promulgated again. Therefore, we have determined that opportunity for prior comment is unnecessary, and we are issuing this regulation as a final rule.

In addition, we find good cause for dispensing with the 30-day delay in the effective date of a substantive rule provided by 5 U.S.C. 553(d). As explained above, we are not making any substantive changes in these body system listings. However, without an extension of the expiration dates for these listings, we will lack regulatory criteria for assessing impairments in

these body systems at the third step of our sequential evaluation process after the current expiration date of these listings. In order to ensure that we continue to have regulatory criteria for assessing impairments under these listings, we find that it is in the public interest to make this final rule effective on the date of publication.

Executive Order 12866

We have consulted with the Office of Management and Budget (OMB) and determined that this final rule does not meet the criteria for a significant regulatory action under Executive Order (E.O.) 12866, as amended by E.O. 13258. We have also determined that this final rule meets the plain language requirement of E.O. 12866, as amended by E.O. 13258.

Regulatory Flexibility Act

We certify that this final rule will not have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis, as provided in the Regulatory Flexibility Act, as amended, is not required.

Paperwork Reduction Act

This final rule imposes no reporting/recordkeeping requirements necessitating clearance by OMB.

BILLING CODE 4191–02–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 522 and 524

Dosage Form New Animal Drugs; Change of Sponsor; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect a change of sponsor for four approved new animal drug applications (NADAs) from Anthony Products, Co. to Cross Vetpharm Group, Ltd.

DATES: This rule is effective June 20, 2003.

FOR FURTHER INFORMATION CONTACT: David R. Newkirk, Center for Veterinary Medicine (HFV–100), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–827–6967, e-mail: dnewkirk@cvm.fda.gov.

SUPPLEMENTARY INFORMATION: Anthony Products, Co., 5600 Peck Rd., Arcadia, CA 91006, has informed FDA that it has transferred ownership of, and all rights and interest in, the following four approved NADAs to Cross Vetpharm Group, Ltd., Broomhill Rd., Tallaght, Dublin 24, Ireland.

NADA Number	Trade Name	21 CFR Section
049–187	PHEN–BUTA (phenylbutazone) Vet Tablets; Phenylbutazone Tablets (Dogs)	520.1720a
122–447	FURA–SEPTIN (nitrofurazone) Soluble Dressing	524.1580b
130–136	Oxytocin Injection	522.1680
140–582	BIOCYL 50; BIOCYL 100 (oxytetracycline)	522.1662a

Accordingly, the agency is amending the regulations in §§ 522.1662a, 522.1680, and 524.1580b (21 CFR 522.1662a, 522.1680, and 524.1580b) to reflect the transfer of ownership. No

amendment of 21 CFR 520.1720a is necessary as each sponsor owns additional phenylbutazone products.

In addition, § 522.1662a is being revised to reflect current format. This

action is being taken to improve consistency between sections of the regulations.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because
