

by the regulations published by the Council on Environmental Quality (CEQ; 40 CFR parts 1500–1508), the Navy prepared an Environmental Assessment (EA) for this project. NMFS made the Navy's EA available to the public for review and comment, in relation to its suitability for adoption by NMFS in order to assess the impacts to the human environment of issuance of an IHA to the Navy. Also in compliance with NEPA and the CEQ regulations, as well as NOAA Administrative Order 216–6, NMFS has reviewed the Navy's EA, determined it to be sufficient, and adopted that EA and signed a Finding of No Significant Impact (FONSI) in September 2016.

Authorization

As a result of these determinations, we have issued an IHA to the Navy for conducting the described pier and support facilities for the transit protection system U.S. Coast Guard Air Station/Sector Field Office Port Angeles, Washington from November 1, 2016 through February 15, 2017, and July 16 through October 31, 2017 provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Permit No. 17845, issued on January 25, 2014 (79 FR 5382), authorizes the permit holder to conduct Level A and B harassment of humpback whales (*Megaptera novaeangliae*) during photo-identification, behavioral follows, and surface and underwater observations in Hawaii, Alaska, and California. Nine other cetacean species may be studied opportunistically and two species of pinnipeds may be incidentally harassed. The permit expires on January 31, 2019. The permit holder is requesting the permit be amended to authorize Level B playbacks for humpback whales to estimate their hearing range using behavioral observation audiometry. The sounds will be presented to a maximum of 300 humpback whales and their behavioral responses will be measured through visual and acoustic recordings including an unmanned aerial system. The research will take place from January through April, annually, in Hawaii. Only humpback whales will be

targeted for active playback, but incidental harassment to additional species may occur including bottlenose dolphins (*Tursiops truncatus*), spinner dolphins (*Stenella longirostris*), false killer whales (*Pseudorca crassidens*), melon headed whales (*Peponocephala electra*), and short-finned pilot whales (*Globicephala macrorhynchus*).

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
