SUPPLEMENTARY INFORMATION:

I. Abstract

Pursuant to the Inventors Rights Act of 1999, 35 U.S.C. 297, and implementing regulations at 37 CFR, Part 4, the United States Patent and Trademark Office (USPTO) is required to provide a form for the publication of complaints concerning invention promoters. Upon receipt of a complaint, the USPTO will forward it to the invention promoter for a response. The USPTO does not investigate these complaints or participate in any legal proceedings against invention promoters or promotion firms. Under the Inventors Rights Act and the implementing regulations, the USPTO is required to publish complaints and responses on the USPTO website, making them available to the public.

A complaint submitted to the USPTO must be clearly marked, or otherwise identified, as a complaint. The complaint must include:

- (1) the name and address of the complainant;
- (2) the name and address of the invention promoter;
- (3) the name of the customer;

(4) the invention promotion services offered or performed by the invention promoter;

(5) the name of the mass media in which the invention promoter advertised such services;

(6) an example of the relationship between the customer and invention promoter; and

(7) a signature of the complainant.

Identifying information is necessary so that the USPTO can both forward the complaint to the invention promoter or invention promotion companies as well as notify the complainant that the complaint has been forwarded. Complainants should understand that the complaints will be forwarded to the invention promoter for response and that the complaint and response will be made available to the public as required by the Inventors Rights Act. If the USPTO does not receive a response from the invention promoter within 30 days, the complaint will be published without a response. Under this program, the USPTO does not accept complaints that request confidentiality.

This information collection contains one form, PTO/2048A (Complaint Regarding Invention Promotion), which is used by the public to submit a complaint under this program. This form is available for download from the USPTO website. Use of this form is voluntary. Complainants may submit a complaint without the form as long as the complaint includes the necessary information and the submission is clearly marked as a complaint filed under the Inventors Rights Act. Invention promotion firms may use any format when responding to a submitted complaint; there is no associated USPTO form. Complaints and responses are posted at <https://www.uspto.gov/patents/basics/using-legal-services/scam-prevention/published-complaints/published>. Although the USPTO typically receives only a few complaints each year, that number is expected to rise given the recent announcement of

new efforts to mitigate threats and protect the integrity of the U.S. patent system: <https://www.uspto.gov/patents/fraud>.

The name of this information collection is being changed from “Invention Promoters/Promotion Firm Complaints” to “Complaints Regarding Invention Promoters” to better align with how this program is usually referenced.

II. Method of Collection

Items in this information collection may be submitted by mail to: Mail Stop 24, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313–1450, or electronically via email at: patentscams@uspto.gov with “Patent scam complaint—submission” in the subject line.
