Substance Abuse and Mental Health Services Administration

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given that the Substance Abuse and Mental Health Services Administration's (SAMHSA) Center for Substance Abuse Prevention's (CSAP) Drug Testing Advisory Board (DTAB) will convene via web conference on December 5, 2023, from 10 a.m. EST to 4:30 p.m.

The board will meet in open-session December 5, 2023, from 10 a.m. EST to 4:30 p.m. EST to hear Federal Partner updates and presentations regarding NLCP activities, updates to the MRO manuals, lab created cannabinoids and other contaminants in commercially available products and the process for adding or removing analytes from the analyte table for federally regulated testing. The board will discuss the Mandatory Guidelines for Federal Workplace Drug Testing Programs and updates to the analyte table to include Fentanyl. Additionally the Department is asking for public comments on the recommendation of adding fentanyl/nor-fentanyl to the analyte table.

Section 8105 of the Fighting Opioid Abuse in Transportation Act, included in the SUPPORT for Patients and Communities Act, required the Secretary to determine whether it is justified, based on the reliability and cost-effectiveness of testing, to revise the Mandatory Guidelines for Federal Workplace Drug Testing Programs to include fentanyl. Section 8105 additionally required the Secretary to consider whether to include any other drugs or other substances listed in Schedule I and II of Controlled Substances Act (CSA). Norfentanyl is a metabolite of fentanyl. Because it is also an immediate precursor used in the illicit manufacture of fentanyl, it is a Schedule II substance under the CSA.
