Information Collection Request

Title: Standard Numbering System for Undocumented Vessels.

OMB Control Number: 1625-0108.

Summary: The Standard Numbering System (SNS) collects information on undocumented vessels/owners operating on waters subject to the jurisdiction of the U.S. A vessel is considered undocumented if it has not been issued a certificate under 46 U.S.C chapter 121. Federal, State, and local law enforcement agencies use information from the system for enforcement of boating laws and theft/fraud investigations. Since the September 11, 2001 terrorist attacks on the U.S., the need has increased for identification of undocumented vessels meeting port security and other missions to safeguard the homeland.

Need: Paragraph (a) of 46 U.S.C. 12301 requires undocumented vessels equipped with propulsion machinery of any kind to be numbered in the State where they are principally operated. In 46 U.S.C. 12302(a), Congress authorized the Secretary to prescribe, by regulation, a SNS, directing approval of a State numbering system if it is consistent therewith. Per DHS Delegation No. 0170.1 section 2 (92)(h), the Secretary has delegated his authority under 46 U.S.C. 12301 and 12302 to the Commandant of the Coast Guard. Regulations requiring the numbering of undocumented vessels are in 33 CFR part 173; those applicable to the States for approval of their systems are contained in 33 CFR part 174.

For States not having an approved system, the Federal Government (Coast Guard) must administer the vessel numbering. Currently, all 50 States and 5 Territories have approved numbering systems. In 2006, there were nearly 13 million undocumented vessels registered by the States. The SNS collects information on undocumented vessels/owners. States submit reports
