

(1) *OMB No.*: New;

(2) *Information Collection Request*

Title: Residential Utility Disconnections Survey;

(3) *Type of Request*: New;

(4) *Purpose*: Form EIA-112 is an annual form that will collect 12 months of data from electric and natural gas providers about final termination notices sent to residential customers due to bill nonpayment, service disconnections of residential customers due to bill nonpayment, and service reconnections of residential customers who were disconnected due to bill nonpayment.

No national data is currently collected on this information. Some states collect some of the data described above, but the data are inconsistent, and publication is not uniform. Form EIA-112 aims to better inform state and federal policymakers on utility disconnections by providing reliable data that can help inform appropriate levels of budgetary support for various assistance programs across the United States. The results of the survey will be published on the EIA website at the aggregated national and state level, as well as at the utility level for respondents.

EIA will conduct periodic censuses of all natural gas and electric utilities above a certain size threshold. These censuses will cover respondents that complete Form EIA-176 and Form EIA-861, excluding the small electric utilities receiving Form EIA-861S. To reduce the respondent burden of this proposed data collection, while also considering data quality, for the years in between censuses, EIA will use cut-off samples from Form EIA-857 and Form EIA-861M, based on utility size and state coverage. This strategy will allow EIA to reduce respondent burden on smaller utilities, while also producing population estimates at the state level by modeling data for the utilities on the frames that were subjected to sampling but not selected.

(5) *Annual Estimated Number of Respondents*: 1,130;

(6) *Annual Estimated Number of Total Responses*: 1,130;

(7) *Annual Estimated Number of Burden Hours*: 2,260;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: EIA estimates no capital and start-up costs associated with this data collection. The information is maintained during the normal course of business. The cost of the burden hours is estimated to be \$206,021.60 (2,260 burden hours times \$91.16 per hour). Other than the cost of burden hours, EIA estimates no additional costs for generating,

maintaining, and providing this information.

Comments are invited on whether or not: (a) The proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have a practical utility; (b) EIA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, is accurate; (c) EIA can improve the quality, utility, and clarity of the information it will collect; and (d) EIA can minimize the burden of the collection of information on respondents, such as automated collection techniques or other forms of information technology.

Statutory Authority: 15 U.S.C. 772(b) and 42 U.S.C. 7101 *et seq.*

Signed in Washington, DC, on June 13, 2024.

Director, Office of Statistical Methods and Research, U.S. Energy Information Administration.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-11994-01-R6]

Clean Water Act Section 303(d): Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Clean Water Act (CWA) requires that states periodically submit, and the Environmental Protection Agency (EPA) approve or disapprove, lists of waters (called "Section 303(d) lists") for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be prepared. Waters identified on Section 303(d) lists are called "water quality-limited segments." This notice describes the EPA's Decision Document, which identified certain additional water quality-limited segments for the Arkansas 2020 Section 303(d) list, and requests public comment on those additions.

DATES: Comments must be received on or before August 26, 2024.

ADDRESSES: You may send written comments to Mr. Richard Wooster by the following methods:

Electronic mail: wooster.richard@epa.gov. Include 'FRL-comment' in the subject line of the message.

Mail: Mr. Richard Wooster, Mail Code R6WDPQ, U.S. Environmental Protection Agency Region 6, 1201 Elm St., Dallas, TX 75270.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Wooster, Water Division Water Quality Protection Section, R6WDPQ, Environmental Protection Agency at wooster.richard@epa.gov or (214) 665-6473. Additional information regarding the basis for this EPA action is available at <https://www.epa.gov/publicnotices>.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act requires that each state identify those water quality-limited segments for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards and for which total maximum daily loads (TMDLs) must be prepared. For each water quality-limited segment on the list, the state identifies the pollutant causing the impairment, when known. In addition, the state assigns a priority ranking for development of TMDLs based on the severity of the pollution and the uses to be made of the waters, among other factors (40 CFR 130.7(b)(4)).

The EPA's Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require states to assemble and evaluate all existing and readily-available water quality data and to use that data to identify water quality-limited segments still requiring TMDLs every two years. Where a state does not use certain data, it must provide a rationale. The list of waters still needing TMDL development must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7).

The EPA received Arkansas's submittal of its listing decisions under Section 303(d)(2) on June 2, 2022. On September 28, 2023, the EPA partially approved and partially disapproved Arkansas's 2020 Section 303(d) list of water quality-limited segments based upon the Agency's finding that Arkansas did not use certain water quality information and therefore did not identify certain water quality-limited segments based upon existing data and public input. The EPA analyzed the information and identified seven additional water quality-limited segments for inclusion on Arkansas's 2020 Section 303(d) list.

The EPA is providing the public an opportunity to review and comment on its identification of these water quality-limited segments for Arkansas's 2020 Section 303(d) list as required by 40 CFR 130.7(d)(2). The EPA will consider public comments and make any appropriate revisions before transmitting the list of water quality-limited segments to the State.

Troy C. Hill,

Director, Water Division.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Extension

AGENCY: Federal Trade Commission.

ACTION: Notice.

SUMMARY: The Federal Trade Commission (“FTC” or “Commission”) requests that the Office of Management and Budget (“OMB”) extend for an additional three years the current Paperwork Reduction Act (“PRA”) clearance for information collection requirements contained in the Commission's rules and regulations under the Fur Products Labeling Act

(“Fur Rules” or “Rules”). That clearance expires on October 31, 2024.

DATES: Comments must be filed by July 22, 2024.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Jock K. Chung, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, Mail Code CC–9528, 600 Pennsylvania Avenue NW, Washington, DC 20580, (202) 326–2984.

SUPPLEMENTARY INFORMATION:

Title of Collection: Rules and Regulations under the Fur Products Labeling Act, 16 CFR part 301.

OMB Control Number: 3084–0099.

Type of Review: Extension without change of currently approved collection.

Abstract: The Fur Products Labeling Act (“Fur Act”) ¹ prohibits the misbranding and false advertising of fur products. The Fur Rules establish disclosure requirements that assist consumers in making informed purchasing decisions, and recordkeeping requirements that assist the Commission in enforcing the Rules. The Rules also provide a procedure for exemption from certain disclosure provisions under the Fur Act.

Likely Respondents: Retailers, manufacturers, processors, and importers of furs and fur products.

Frequency of Response: Third party disclosure; recordkeeping requirement.

Estimated Annual Burden Hours: 180,639 hours (45,720 hours for recordkeeping + 134,919 hours for disclosure).

Estimated Annual Cost Burden: \$3,750,855 (roundest to the nearest whole dollar amount).²

Estimated Annual Non-Labor Costs: \$0 or *de minimis*.
