AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: This document informs the public that an appeal of the closing of the Prescott, Iowa post office has been filed. It identifies preliminary steps and provides a procedural schedule. Publication of this document will allow the Postal Service, petitioners, and others to take appropriate action.

DATES:

November 22, 2011: Administrative record due (from Postal Service);
December 23, 2011, 4:30 p.m., Eastern Time: Deadline for notices to intervene.

See the Procedural Schedule in the **SUPPLEMENTARY INFORMATION** section for other dates of interest.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to 39 U.S.C.

404(d), the Commission received two petitions for review of the Postal Service's determination to close the Prescott post office in Prescott, Iowa. The first petition for review received November 7, 2011, was filed by Dan Westlake. The second petition for review received November 17, 2011, was filed by Joyce James. The earliest postmark date is October 26, 2011. The Commission hereby institutes a proceeding under 39 U.S.C. 404(d)(5) and establishes Docket No. A2012-60 to consider Petitioners' appeal. If Petitioners would like to further explain their position with supplemental information or facts, Petitioners may either file a Participant Statement on PRC Form 61 or file a brief with the Commission no later than December 12, 2011.

Categories of issues apparently raised. Petitioners contend that (1) the Postal Service failed to consider the effect of the closing on the community (*see* 39 U.S.C. 404(d)(2)(A)(i)); (2) the Postal Service failed to consider whether or not it will continue to provide a maximum degree of effective and regular postal services to the community (*see* 39 U.S.C. 404(d)(2)(A)(iii)); and (3) the Postal Service failed to adequately consider the economic savings resulting from the closure (*see* 39 U.S.C. 404(d)(2)(A)(iv)).

After the Postal Service files the administrative record and the Commission reviews it, the Commission may find that there are more legal issues than those set forth above, or that the Postal Service's determination disposes of one or more of those issues. The deadline for the Postal Service to file the applicable administrative record is within 15 days after the date in which the petition for review was filed with the Commission. *See* 39 CFR 3001.113. In addition, the due date for any responsive pleading by the Postal Service is also within 15 days after the

date in which the petition for review was filed with the Commission.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-65831; File No. SR-DTC-2011-08]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing of Proposed Rule Change To Enhance Risk Management Controls Associated With the Receiver Authorized Delivery Function

November 28, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4² thereunder, notice is hereby given that on November 16, 2011, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would enhance the risk management controls

associated with DTC's Receiver Authorized Delivery ("RAD") function.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(1) The RAD function enables each Participant to control and review a Deliver Order ("DO")³ or a Payment Order ("PO")⁴ that is directed to its account by another Participant before its account is updated. The RAD function was built in 1990 to route money market instrument ("MMI") transactions for

receiver approval. In 1996, there was a conversion for all transactions to settle in same-day funds subject to the net debit cap control⁵ and collateral controls.⁶ Any DO that obligated a Participant to pay \$15 million or more and any PO that obligated a Participant to pay \$1 million or more became subject to RAD. In order to minimize blockage, DTC excluded from RAD any DO under \$15 million and any PO under \$1 million. Transactions in such lower amounts were directed to the account of the receiving Participant without the RAD filter. For such lower amounts, the receiving Participant has the ability on the same day as the original delivery to instruct a matched

⁵ The net debit cap control is designed so that DTC may complete settlement even if a Participant fails to settle. Before completing a transaction in which a Participant is the receiver, DTC calculates the effect the transaction would have on such Participant's account and determines whether any resulting net debit balance would exceed the Participant's net debit cap. Any transaction that would cause the net debit balance to exceed the Participant's net debit cap is placed on a pending (recycling) queue until another transaction creates sufficient credit in such Participant's account so that the net debit cap will not be exceeded.

⁶ An example of a collateral control is the Collateral Monitor ("CM"). DTC tracks collateral in a Participant's account through the Collateral Monitor. At all times, the CM reflects the amount by which the collateral value in the account exceeds the net debit balance in the account. When processing a transaction, DTC verifies that the CM of neither the deliverer nor the receiver will not become negative when the transaction completes. If the transaction would cause either party to have a negative CM, the transaction will recycle until the deficient account has sufficient collateral to proceed or until the applicable cutoff occurs.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ A Deliver Order is the term used to define an instruction initiating the book-entry transfer of a security from one DTC Participant, as delivering Participant, to another DTC Participant, as receiving Participant.

⁴ A Payment Order is the term used to define an instruction initiating a transaction in which a Participant charges another Participant for changes in value for outstanding stock loans or option contract premiums. Payment orders involve no securities, only money.
