

- Hazards associated with the transport, unloading, storage, and vaporization of LNG.
- Pipeline route alternatives and variations, including the no action alternative.
- Impacts on any Section 4(f) Lands in Pennsylvania.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the proposal. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. To expedite our receipt and consideration of your comments, the Commission strongly encourages electronic submission of any comments on this project. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can submit comments you will need to create a free account, which can be created by clicking on "Login to File" and then "New User Account." You will be asked to select the type of submission you are making. This submission is considered a "Comment on Filing."

If you wish to mail comments, please mail your comments so that they will be received in Washington, DC on or before November 23, 2004, and carefully follow these instructions:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;
- Label one copy of your comments for the attention of Gas Branch 1;
- Reference Docket No. PF04-15-000 (Dominion) on the original and both copies.

The public scoping meetings to be held next month are designed to provide another opportunity to offer comments on the proposed project. Interested groups and individuals are encouraged to attend one of the meetings and to present comments on the environmental issues they believe should be addressed in the EIS. A transcript of the meetings will be generated so that your comments will be accurately recorded.

We will include all comments that we receive within a reasonable time frame in our environmental analysis of the project.

Availability of Additional Information

A docket number (PF04-15-000) has been established to place information filed by Dominion and related

documents issued by the Commission, into the public record. To view information in the docket, follow the instructions for using the eLibrary link (see below). Once a formal application is filed, the Commission will:

- Publish a Notice of Application in the **Federal Register**;
- Establish a new docket number; and
- Set a deadline for interested persons to intervene in the proceeding.

Because the Commission's Pre-Filing Process occurs before an application to begin a proceeding is officially filed, petitions to intervene during this process are premature and will not be accepted by the Commission.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance with eLibrary, the eLibrary helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at ferconlinesupport@ferc.gov. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Finally, public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Finally, Dominion has established an Internet Web site for its project at <http://www.dom.com/about/gas-transmission/covepoint/expansion/index.jsp>. The Web site includes a description of the project, maps of the proposed site, and links to related documents.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP04-420-000]

Trunkline Gas Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Edna Horsepower Replacement Project and Request for Comments on Environmental Issues

October 14, 2004.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Edna Horsepower Replacement Project involving abandonment, construction, and operation of facilities by Trunkline Gas Company, LLC (Trunkline) in Jackson County, Texas.¹ These facilities would consist of abandoning a 6,350 horsepower (hp) compressor unit and associated piping and valving and installing a 1,675-hp compressor unit. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice Trunkline provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Project

Trunkline proposes to deactivate and abandon in place an existing 6,350-hp compressor unit and related auxiliary equipment at the Edna Compressor Station in Jackson County, Texas. Trunkline proposes to use parts from this compressor unit to repair, when needed, an existing 6,350-hp compressor at the Kountze Compressor Station. The applicant also proposes to replace the original unit at the Edna Compressor Station by installing a new 1,675-hp natural gas fired engine with a 4-throw single stage compressor package. The compressor would be skid-mounted and would be inside the existing compressor station yard west of the existing compressor unit. It would

¹ Trunkline's application was filed with the Commission under section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.

be contained in a weather enclosure consisting of a concrete foundation, a roof, and insulated walls on the north, east, and west sides.

The location of the project facilities is shown in appendix 1.²

Land Requirements for Construction

Construction of the proposed facilities would require about 2.0 acres of land at Trunkline's existing Edna Compressor Station. Following construction, about 0.1 acres would be maintained as aboveground facility sites that are already currently owned by Trunkline. The remaining 1.9 acres of land would be restored to its current state (grass).

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as "scoping". The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission staff requests public comments on the scope of the issues to address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

In the EA we³ will discuss impacts that could occur as a result of the construction and operation of the proposed project.

We will also evaluate possible alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to Federal, state,

and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. By becoming a commentator, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative locations), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of the comments for the attention of Gas Branch 1.
- Reference Docket No. CP04-420-000.
- Mail your comments so that they will be received in Washington, DC on or before November 15, 2004.

Please note that the commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Before you can file comments, you will need to create an account by clicking on "login to file" and then "New User Account". You will be asked to select the type of filing you are making. This filing is considered a "comment on filing."

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor". Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor

must send one electronic copy (using the Commission's eFiling system) or 14 paper copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, see appendix 2)⁴. Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Environmental Mailing List

An effort is being made to send this notice to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project. This includes all landowners, whose property may be used temporarily for project purposes, or who own homes within distances defined in the Commission's regulations of certain aboveground facilities.

Availability of Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance with eLibrary, the eLibrary helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at ferconlinesupport@ferc.gov. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to

² The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of all appendices, other than appendix 1 (maps), are available on the Commission's Web site at the "eLibrary" link or from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

³ "We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).

⁴ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Declaration of Intention and Soliciting Comments, Protests, and/or Motions To Intervene

October 14, 2004.

Take notice that the following application has been filed with the Commission and is available for public inspection:

- a. *Application Type*: Declaration of intention.
 - b. *Docket No.*: DI04-6-000.
 - c. *Date Filed*: August 30, 2004, with supplementary information filed September 21 and October 7, 2004.
 - d. *Applicant*: Georgia State Parks and Historic Sites, Georgia Department of Natural Resources.
 - e. *Name of Project*: High Falls State Park Demonstration Project.
 - f. *Location*: The proposed High Falls State Park Demonstration project will be located in the High Falls State Park in Monroe County near Jackson, Georgia, on the Towaliga River.
 - g. *Filed Pursuant to*: Section 23(b)(1) of the Federal Power Act, 16 U.S.C. 817(b).
 - h. *Applicant Contact*: David Freedman, 2 Martin Luther King, Jr., Drive SE., Suite 1352 East Tower, Atlanta, Georgia 30334-9000, telephone (404) 656-6531, fax (404) 651-5871, e-mail: DavidF@dnr.state.ga.us.
 - i. *FERC Contact*: Any questions on this notice should be addressed to Henry Ecton (202) 502-8768, or e-mail address: henry.ecton@ferc.gov.
 - j. *Deadline for Filing Comments and/or Motions*: November 15, 2004.
- All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov>. Please include the docket number (DI04-6-000) on any comments or motions filed.
- k. *Description of Project*: The proposed High Falls State Park Demonstration Project would use an

abandoned hydroelectric facility within the State Park. The proposed project would use water from an 1,890-foot-long raceway, which is connected to a dam located on the Towaliga River. A pipe from the outlet of the raceway to the old mill would power a 7.2 kW generator. The generated power would be used to run an exhibit at the State Park. The project would not be connected to the interstate grid.

When a Declaration of Intention is filed with the Federal Energy Regulatory Commission, the Federal Power Act requires the Commission to investigate and determine if the interests of interstate or foreign commerce would be affected by the project. The Commission also determines whether or not the project: (1) Would be located on a navigable waterway; (2) would occupy or affect public lands or reservations of the United States; (3) would utilize surplus water or water power from a government dam; or (4) if applicable, has involved or would involve any construction subsequent to 1935 that may have increased or would increase the project's head or generating capacity, or have otherwise significantly modified the project's pre-1935 design or operation.

1. *Locations of the Application*: Copies of this filing are on file with the Commission and are available for public inspection. This filing may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link, select "Docket#" and follow the instructions. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions To Intervene*—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents*—Any filings must bear in all capital letters the title "COMMENTS", "PROTESTS", and/or

"MOTIONS TO INTERVENE", as applicable, and the Docket Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. *Agency Comments*—Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Magalie R. Salas,
Secretary.

[FR Doc. E4-2750 Filed 10-20-04; 8:45 am]

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application Accepted for Filing and Soliciting Motions To Intervene, Protests, and Comments

October 15, 2004.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Type of Application*: Preliminary permit.
- b. *Project No.*: 12497-000.
- c. *Date Filed*: May 14, 2004.
- d. *Applicant*: Red Circle Systems Corporation.
- e. *Name of Project*: Sea Gen Miami Project.
- f. *Location*: On Gulf Stream in the Atlantic Ocean, near Dade County, Florida. No federal land or facilities would be used.
- g. *Filed pursuant to*: Federal Power Act, 16 U.S.C. 791(a)—825(r).
- h. *Applicant Contact*: Mr. Paul H. Wells, Red Circle Systems Corp., 2430 NE. 199 Street, North Miami Beach, FL 33180, (305) 936-1515.
- i. *FERC Contact*: Robert Bell, (202) 502-6062.
- j. *Deadline for Filing Comments, Protests, and Motions to Intervene*: 60 days from the issuance date of this notice.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor files comments or documents with the
