DEPARTMENT OF ENERGY

[OE Docket No. PP–230–4]

Notice of Extension of Comment Period; International Transmission Company, d/b/a ITC Transmission

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Extension of Comment Period.

SUMMARY: International Transmission Company, d/b/a ITC Transmission (ITC), filed a request to extend the comment period on its supplemental filing of operational documents in an ongoing Presidential permit proceeding regarding the ITC application to amend Presidential Permit No. PP–230–3.

DATES: Comments must be submitted and received by DOE on or before October 14, 2011.

ADDRESSES: Comments should be addressed to: Christopher Lawrence, Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Christopher.Lawrence@hq.doe.gov, or by facsimile to 202–586–8008.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at 202–586–5260, or by e-mail to Christopher.Lawrence@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On January 5, 2009, ITC applied to the DOE to amend Presidential Permit No. PP–230–3 by authorizing ITC to replace a failed 675-MVA transformer with two 700-MVA phase-shifting transformers connected in series at ITC's Bunce Creek Station in Marysville, Michigan.

DOE issued a notice of ITC's application in the **Federal Register** on February 10, 2009 (74 FR 6607), requesting that any comments, protests, or motions to intervention be filed by March 12, 2009. Numerous responsive documents were filed, including late requests to intervene. The filings raised various issues, including the need to review the operational protocols for the facilities with the installation of the new transformers, also known as phase angle regulators (PARs).

On August 9, 2011, DOE received Supplemental Reply Comments from ITC, which completed the ITC response to earlier comments filed in the proceeding by the Midwest Independent Transmission System Operator (MISO), Inc. and the Independent Electricity System Operator of Ontario. According to ITC, the supplemental filing provided the operational agreements required to complete ITC's application in the amendment proceeding, including a letter of agreement between ITC and MISO assigning functional control of the subject facilities at the Bunce Creek Station to MISO.
