NPRM Notice of Proposed Rulemaking

A. Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good

cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because there is insufficient time to publish a NPRM. The Coast Guard received notice on April 27, 2012 from Port Fourchon Harbor Police that fishing vessels were actively fishing in the immediate vicinity of the Dredge MISSOURI H, creating an unsafe condition for mariners. This notice did not provide the time needed for the NPRM process. Publishing a NPRM would be impracticable and contrary to public interest because it would unnecessarily delay the immediate action needed to protect persons and vessels from potential safety hazards associated with dredging operations.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The Coast Guard received notice on April 27, 2012 from Port Fourchon Harbor Police that fishing vessels were actively fishing in the immediate vicinity of the Dredge MISSOURI H, creating an unsafe condition for mariners. This notice did not provide an opportunity to make this rule effective only upon a lapsing of 30 days post publication in the **Federal Register**. Making this rule effective only upon the lapse of 30 days post publication in the **Federal Register** would be contrary to public interest because it would unnecessarily delay the immediate action needed to protect persons and vessels from potential safety hazards associated with dredging operations.

B. Basis and Purpose

The purpose of this temporary safety zone is to protect persons and vessels during the dredging operations of the Dredge MISSOURI H. The Dredge MISSOURI H will work 24 hours a day, 7 days a week, and will deposit material using floating and submerged pipelines along the Gulf Shoreline of Belle Pass. In addition to the dredging equipment described above, there are numerous work and support vessels associated with the dredging operation. This dredging operation poses significant safety hazards to both vessels and mariners operating in the vicinity of the Dredge MISSOURI H.

C. Discussion of Rule

The Coast Guard is establishing a 500 foot temporary moving safety zone around the Dredge MISSOURI H while
