Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; High-Frequency Surveys Program/Household Pulse Survey

On January 2, 2024, the Department of Commerce received clearance from the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act of 1995 to conduct Phase 4.0 of the Household Pulse Survey (OMB No. 0607–1029, Exp. 01/31/27). The Department is committed to ensuring that the data collected by the Household Pulse Survey continue to meet information needs as they may evolve. This notice serves to inform of the Department's intent to request clearance from OMB to make some revisions to the Household Pulse Survey questionnaire. To ensure that the data collected by the Household Pulse Survey continue to meet information needs as they evolve over the course of the pandemic, the Department submits the following Request for Revision to an Existing Collection for a revised Phase 4.1 questionnaire to the Office of Management and Budget (OMB) for

review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice.

Phase 4.1 includes new questions on inclusion in the arts as well as reinstated Medicaid and Unemployment Insurance items. There are also revisions to response options for the long COVID duration and food benefit receipt questions.

It is the Department's intention to commence data collection using the revised instrument on or about April 2, 2024. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 31, 2023 (OMB No. 0607–1029) during a 30-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: High Frequency Surveys Program/Household Pulse Survey.

Form Number(s): None.

Type of Request: Regular submission, Request for a Revision of a Currently Approved Collection.

Number of Respondents: 264,600.

Average Hours per Response: .333 (20 minutes).

Burden Hours: 88,112.

Needs and Uses: The High-Frequency Surveys Program was established as a natural progression from the creation of the Household Pulse Survey. Changes in the measures over time provided insight into individuals' experiences on social and economic dimensions during the period of the pandemic. It has evolved to include content on other emergent social and economic issues facing households and is designed to supplement the federal statistical system's traditional benchmark data products with a new data source that provides relevant and timely information based on a high-quality sample frame, data integration, and cooperative expertise.

Affected Public: Households.

Frequency: Households will be selected once to participate in a 20-minute survey.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 8(b), 182 and 193.

SUPPLEMENTARY INFORMATION:

Background

On September 8, 2023, Commerce published the *Preliminary Results* of this administrative review and invited parties to comment on those results.¹ The review covers one mandatory

respondent, Euro SME Sdn. Bhd. and Euro Nature Green Sdn. Bhd. (Nature Green) (collectively, Euro SME). For a summary of the events that occurred since the *Preliminary Results*, as well as a full discussion of the issues raised by parties for these final results, see the Issues and Decision Memorandum.² On January 3, 2024, we extended the deadline for these final results to February 6, 2024.³ Commerce conducted this administrative review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The merchandise covered by this order is polyethylene retail carrier bags from Malaysia, which may be referred to as t-shirt sacks, merchandise bags, grocery bags, or checkout bags. Imports of merchandise included within the scope of this antidumping duty order are currently classifiable under statistical category 3923.21.0085 of the Harmonized Tariff Schedule of the United States (HTSUS). This subheading may also cover products that are outside the scope of this antidumping duty order. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this antidumping duty order is dispositive. For a full description of the scope of the order, see the Issues and Decision Memorandum.

Analysis of the Comments Received

All issues raised in the case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues that parties raised and to which we responded in the Issues and Decision Memorandum is attached as the appendix to this notice. The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

² See Memorandum, “Issues and Decision Memorandum for the Final Results of the Administrative Review of the Antidumping Duty Order on Polyethylene Retail Carrier Bags from Malaysia; 2021–2022,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

³ See Memorandum, “Polyethylene Retail Carrier Bags from Malaysia: Extension of Deadline for Final Results of Antidumping Duty Administrative Review,” dated January 3, 2024.

Changes Since the Preliminary Results

Based on our analysis of the comments received from interested parties, a review of the record, and for the reasons explained in the Issues and Decision Memorandum, we made certain changes to the margin calculation for Euro SME.⁴ For a detailed discussion of these changes, see the Issues and Decision Memorandum.

Final Results of Review

Commerce determines that the following weighted-average dumping margin exists for the period August 1, 2021, through July 31, 2022:

Exporter/producer	Weighted-average dumping margin (percent)
Euro SME Sdn. Bhd.; and Euro Nature Green Sdn. Bhd.	1.61

Disclosure

Commerce intends to disclose to interested parties the calculations performed for these final results in this review within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. Pursuant to 19 CFR 351.212(b)(1), where the respondent reported the entered value of its U.S. sales, we calculated importer-specific antidumping duty assessment rates by aggregating the total amount of dumping calculated for the examined sales of each importer and dividing each of these amounts by the total entered value associated with those sales. Where the respondent did not report entered value, we calculated a per-unit assessment rate for each importer by dividing the total

⁴ In the 2018–2019 administrative review of the order, we treated Euro SME Sdn. Bhd. and Nature Green as a single entity. Our treatment of Euro SME Sdn. Bhd. and Nature Green remains unchanged in the instant review.
