SUPPLEMENTARY INFORMATION:

Background: The WTCHP STAC was established by Title I of the James Zadroga 9/11 Health and Compensation Act of 2010, Public Law 111–347 (Jan. 2, 2011), as amended by Public Law 114–113 (Dec. 18, 2015) and Public Law 116–59 (Sept. 27, 2019), adding Title XXXIII to the Public Health Service (PHS) Act (codified at 42 U.S.C. 300mm to 300mm–61).

Purpose: The purpose of the WTCHP STAC is to review scientific and medical evidence and to make recommendations to the Administrator of the World Trade Center (WTC) Health Program regarding additional WTC Health Program eligibility criteria, potential additions to the List of WTC-Related Health Conditions (List), and research regarding certain health conditions related to the September 11, 2001, terrorist attacks.

Title XXXIII of the PHS Act established the WTC Health Program within the Department of Health and Human Services (HHS). The WTC Health Program provides medical monitoring and treatment benefits to eligible firefighters and related personnel, law enforcement officers, and rescue, recovery, and cleanup workers who responded to the September 11, 2001, terrorist attacks in New York City, at the Pentagon, and in Shanksville, Pennsylvania (responders), and to eligible persons who were present in the dust or dust cloud on September 11, 2001 or who worked, resided, or attended school, childcare, or adult daycare in the New York City disaster area (survivors). Certain specific activities of the Administrator of the WTC Health Program are reserved to the Secretary, HHS, to delegate at his discretion; other duties not explicitly reserved to the Secretary, HHS, are assigned to the Director of the National Institute for Occupational Safety and Health (NIOSH). The administration of the WTCHP STAC is left to the Director of NIOSH in his role as Administrator. CDC and NIOSH provide funding, staffing, and administrative support services for the WTCHP STAC. The charter was reissued on May 12, 2021 and will expire on May 12, 2023.

Matters To Be Considered: The agenda will include a presentation about revisions to the existing *Policy and Procedures for Adding Types of Cancer to the List of WTC-Related Health Conditions*, a report from the STAC workgroup regarding adding uterine cancer to the List, deliberations by the

full committee on the STAC recommendation to the Administrator of the WTC Health Program on whether to add uterine cancer to the List, and recommendations on peer reviewers to review the evaluation of the evidence for adding the health condition to the List. The revised draft *Policy and Procedures for Adding Types of Cancer to the List of WTC-Related Health Conditions* is available on the WTC Health Program website at https://www.cdc.gov/wtc/stac_meeting.html.
