[GA51-200011b; FRL-6541-8]

Approval and Promulgation of State Plans For Designated Facilities and Pollutants: Georgia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the section 111(d) Plan for the State of Georgia submitted by the Georgia Department of Natural Resources (DNR) on September 15, 1998, for implementing and enforcing the Emissions Guidelines applicable to existing Hospital/Medical/Infectious Waste Incinerators. The Plan was submitted by the Georgia DNR to satisfy certain Federal Clean Air Act requirements. In the Final Rules section of this **Federal Register**, EPA is approving the Georgia State Plan submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct

final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action.

DATES: Comments on this proposed rule must be received in writing by March 27, 2000.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 00-257; MM Docket No. 99-204; RM-9623]

Radio Broadcasting Services; Grand View, ID

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial.

SUMMARY: This document denies a petition for rule making filed by Mountain West Broadcasting proposing the allotment of FM Channel 228A to Grand View, Idaho, as that locality's first local aural transmission service. See 64 FR 31175, June 10, 1999. Evidence presented established that the

proposed reference coordinates at 42-53-47 NL and 116-50-30 WL to accommodate Channel 228A are located in a wilderness area managed by the Bureau of Land Management ("BLM"). The BLM stated that in the absence of environmental studies, the referenced site will not be designated as suitable for future use as an electronics site. The petitioner did not present any engineering showings to establish the availability of an alternate site. With this action, the proceeding is terminated.

ADDRESS: Federal Communications Commission, Washington, DC 20554.
