Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern

time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protest do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Docket No. RP11-1823-000]

Public Utilities Commission of Nevada and Sierra Pacific Power Company v. Tuscarora Gas Transmission Company; Notice of Complaint

Take notice that on February 28, 2011, pursuant to section 5 of the Natural Gas Act, 15 USC 717d(a) (2006) and Rule 206 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, 18 CFR 385.206 (2010), Public Utilities Commission of Nevada and Sierra Pacific Power Company (Complainants) filed a formal complaint against Tuscarora Gas Transmission Company (Tuscarora) (Respondent), alleging that Tuscarora's rates for jurisdictional services are unjust and unreasonable and asking the Commission to determine just and reasonable rates and to establish an interim rate reduction.

Complainants certify that copies of the complaint were served on individuals listed on the Commission's official service list.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission,

888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Docket No. CP11-25-000]

Questar Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Mainline 104 Extension to Fidlar Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Mainline 104 Extension to Fidlar Project (Project) proposed by Questar Pipeline Company (Questar) in the above-referenced docket. Questar requests authorization to extend its existing Mainline 104 pipeline eastward by constructing, operating, and maintaining a natural gas transmission pipeline and ancillary facilities between Questar's Green River Block Valve and its Fidlar Compressor Station located in Uintah County, Utah. The purpose of the Project is to allow shippers greater access to Uinta basin natural gas supplies near the Fidlar Compressor Station.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Bureau of Indian Affairs (BIA), U.S. Bureau of Land Management (BLM), U.S. Fish and Wildlife Service, and Utah Public Lands and Policy Coordination Office participated as cooperating agencies in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The BIA and BLM will adopt and use the EA to consider the issuance of a right-of-way grant for the portion of the Project on tribal and federal lands, respectively.

Questar's proposed Project includes the following facilities:

- About 24.6 miles of 24-inch-diameter natural gas transmission pipeline;
- Three mainline block valves at mileposts (MP) 8.5, 14.5, and 24.6;
- One pig launcher/receiver at the Fidlar Compressor Station;
- Eight underground pipeline taps at MPs 3.1, 5.4, 6.3, 8.5, 12.7, 13.3, 16.9, and 20.9; and
- A measurement and control facility within the Fidlar Compressor Station.

The EA has been placed in the public files of the FERC and is available for public viewing on the FERC's Web site at <http://www.ferc.gov> using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are properly recorded and considered prior to a Commission decision on the proposal, it is important that the FERC receives your comments in Washington, DC on or before April 4, 2011.

For your convenience, there are three methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number (CP11-25-000) with your submission. The Commission encourages electronic filing of
