

For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Vinyl Chloride (40 CFR part 61, subpart F) were proposed on December 24, 1975; promulgated on October 21, 1976; and most recently amended on July 10, 1990. These regulations apply to existing facilities and new facilities that produce ethylene dichloride (EDC) by reaction of the following: (1) oxygen and hydrogen chloride with ethylene; (2) vinyl chloride (VC) by any process; and (3) one or more polymers containing any fraction of polymerized VC (*i.e.*, polyvinyl chloride (PVC)). This subpart does not apply to equipment used in research and development if the reactor used to polymerize the VC has a capacity of no more than 0.19 cubic meters (m<sup>3</sup>). New facilities include those that commenced either construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 61, subpart F.

**Form Numbers:** None.

**Respondents/affected entities:** EDC, PVC, and VC plants.

**Respondent's obligation to respond:** Mandatory (40 CFR part 61, subpart F).

**Estimated number of respondents:** 25 (total).

**Frequency of response:** Initially, quarterly, and occasionally.

**Total estimated burden:** 10,210 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$2,890,000 (per year), which includes \$1,600,000 annualized capital or operation & maintenance costs.

**Changes in the estimates:** There is an increase of 3,670 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This adjustment is due to an increase of nine sources compared to the previous ICR. This increase in the number of sources is not due to a program change but is based on updated information collected by the U.S. EPA for other related rulemakings. The increased number of sources also resulted in an increase in the O&M costs. Additionally, the O&M costs increase due to an adjustment from 2008 \$ to 2022 \$ using the CEPCI CE Index.

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Inorganic Arsenic Emissions From Glass Manufacturing Plants (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants (EPA ICR Number 1081.14, OMB Control Number 2060-0043) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2025. Public comments were previously requested via the **Federal Register** on May 18, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments. **DATES:** Comments may be submitted on or before March 31, 2025.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2020-0630, to EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [a-and-r-docket@epa.gov](mailto:a-and-r-docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Muntasir Ali, Sector Policies and

Program Division (D243-05), Office of Air Quality Planning and Standards, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (919) 541-0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023, during a 60-day comment period (88 FR 31748). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the regulations published at 40 CFR part 61, subpart N were proposed on July 20, 1983; promulgated on August 4, 1986; and amended on: October 3, 1986; May 31, 1990; February 12, 1999; October 17, 2000; February 12, 1999; and February 27, 2014. These regulations apply to each existing and new glass melting furnace that uses commercial arsenic as a raw material located at a glass manufacturing plant. These standards do not apply to pot furnaces; in addition, the standards do not consider re-bricking as either construction or modification for the purposes of 40 CFR 61.05(a). New facilities include those that commenced either construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 61, subpart N.

**Form Numbers:** None.

**Respondents/affected entities:** Glass manufacturing plants.

**Respondent's obligation to respond:** Mandatory (40 CFR part 61, subpart N).

**Estimated number of respondents:** 16 (total).

**Frequency of response:** Initially, semiannually.

**Total estimated burden:** 3,100 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$470,000 (per year), which includes \$79,400 annualized capital or operation & maintenance costs

*Changes in the estimates:* There is no change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. There is an increase in the capital/O&M costs. The operation and maintenance (O&M) costs have been updated from 2008 dollars to 2022 dollars using the CEPCI CE Index.

**Abstract:** The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, subpart HH were proposed on May 3, 1977, and promulgated on April 26, 1984. These regulations apply to existing and new rotary lime kilns used in the manufacturing of lime. These standards do not apply to facilities used in the manufacture of lime at kraft pulp

mills. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart HH.

*Form numbers:* None.

*Respondents/affected entities:* Lime manufacturing plants and/or lime kilns.

*Respondent's obligation to respond:* Mandatory (40 CFR part 60, subpart HH).

*Estimated number of respondents:* 41 (total).

*Frequency of response:* Initially and semiannually

*Total estimated burden:* 3,820 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$544,000 (per year), which includes \$61,500 annualized capital or operation & maintenance costs.

*Changes in the estimates:* There are no changes in hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. There was an increase in the capital/O&M costs to adjust the costs using the CEPCI CE Index.
