Proposed Project: Children's Hospital Graduate Medical Education Program (OMB No. 0915-0247)

Public Law 106-129 amended the Public Health Service Act to provide for the support of graduate medical education (GME) in children's hospitals. The provision authorizes payments in Fiscal Years 2000 and 2001 for direct and indirect expenses associated with operating approved GME programs. Section 340E(c)(1) of the PHS Act, as amended, states that the amount determined under this subsection for payments for direct medical expenses for a fiscal year is equal to the product of (a) the updated per resident amount as determined, and (b) the average number of FTE residents in the hospital's approved graduate medical residency training programs as determined under section 1886(h)(4) of the Social Security Act during the fiscal year. Section 340E(d)(2) requires the Secretary to determine the appropriate amount of indirect medical education for expenses associated with the treatment of more severely ill patients and the additional costs relating to teaching residents in such programs to a children's hospital by considering variations in case mix among children's hospitals, and the hospitals' number of FTE residents in approved training programs.

Administration of the Children's Hospital Graduate Medical Education Program relies on the reporting of the number of full-time equivalent residents in applicant children's hospital training programs to determine the amount of direct and indirect expense payments to participating children's hospitals. Indirect expense payments will also be derived from a formula that requires the reporting of case mix index information from participating children's hospitals.

Hospitals will be requested to submit such information in an annual application. The statute also requires reconciliation of the estimated numbers of residents with the actual number determined at the end of the fiscal year. Participating children's hospitals would be required to complete an adjusted report to correct such information on an annual basis.

Office of Inspector General

Program Exclusions: June 2000

AGENCY: Office of Inspector General, HHS.

ACTION: Notice of program exclusions.

During the month of June 2000, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.
