[Docket No. FAA–2023–1119; Airspace Docket No. 22–AAL–76]

RIN 2120–AA66

Establishment of Class E Airspace; Tununak Airport, Tununak, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace extending upward from 700 feet above the surface at Tununak Airport, Tununak, AK, in support of the airport's transition from visual flight rules (VFR) to instrument flight rules (IFR) operations.

DATES: Effective date 0901 UTC, July 11, 2024. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11, Airspace Designations and Reporting Points, and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11H, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code (U.S.C.). Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace to support IFR operations at Tununak Airport, Tununak, AK.

History

The FAA published an NPRM for Docket No. FAA–2023–1119 in the **Federal Register** (88 FR 37484; June 8, 2023), proposing to establish Class E airspace at Tununak Airport, AK. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Incorporation by Reference

The Class E5 airspace designation is published in paragraph 6005 of FAA Order JO 7400.11, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 to establish Class E airspace at Tununak Airport, Tununak, AK, in support of the airport's transition from VFR to IFR operations.

The Class E airspace will extend upward from 700 feet above the surface

and extends 7.4 miles from the airport reference point to both the north and south with a 3.4-mile western extension. This configuration is designed to fully contain arriving IFR operations below 1,500 feet above the surface on the Area Navigation (RNAV) Global Positioning System (GPS) RWY 34 approach, RNAV (GPS) Y RWY 16 approach, and the RNAV (GPS) Z RWY 16 approach, as well as departing IFR operations until they reach 1,200 feet above the surface on the EZEPU ONE (OBSTACLE) (RNAV) departure.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order (E.O.) 12866; (2) is not a “significant rule” under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for a categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p.389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR part 71.1 of FAA Order JO 7400.11H, Airspace Designations and Reporting Points, dated August 11, 2023, and effective September 15, 2023, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AAL AK E5 Tununak, AK [New]

Tununak Airport, AK

(Lat. 60°34'10" N, long. 165°14'47" W)

That airspace extending upward from 700 feet above the surface within a 3.4-mile radius of the airport between the 258° bearing clockwise to the 306° bearing, and within 2.5 miles east and 2.8 miles west of the 168° bearing extending from the airport to 7.4 miles south, and within 1.9 miles east and 2.3 miles west of the 348° bearing extending from the airport to 7.4 miles north.

RIN 2120–AA66

Amendment of Multiple Air Traffic Service (ATS) Routes and Establishment of Area Navigation (RNAV) Route T–478 in the Vicinity of Danville, IL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Jet Route J–84, United States Area Navigation (RNAV) route Q–42, and Very High Frequency Omnidirectional Range (VOR) Federal airways V–171 and V–

251, and establishes United States RNAV route T–478. The FAA is taking this action due to the planned decommissioning of the VOR portion of the Danville, IL (DNV), VOR/Tactical Air Navigation (VORTAC) navigational aid (NAVAID). The Danville VOR is being decommissioned in support of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Effective date 0901 UTC, January 25, 2024. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the Air Traffic Service (ATS) route structure as necessary to preserve the safe and efficient flow of air traffic within the National Airspace System.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA–2023–1026 in the **Federal Register** (88 FR 29573; May 8, 2023), proposing to amend Jet Route J–84, United States RNAV route Q–42, and VOR Federal airways V–171 and V–251, and establish United States RNAV route T–478 due to the planned decommissioning of the VOR portion of the Danville, IL, VORTAC NAVAID. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

Differences From the NPRM

Concurrent with the NPRM, the FAA published a final rule for Docket No. FAA–2022–1586 in the **Federal Register** (88 FR 31607; May 18, 2023), amending VOR Federal airway V–171 by removing the airway segment between the Grand Forks, ND, VOR/Distance Measuring Equipment (VOR/DME) and the Roseau, MN, VOR/DME. That airway amendment, effective August 10, 2023, is included in this rule.

Additionally, subsequent to the NPRM, the FAA determined the STRUK, IL, waypoint (WP) listed in the Q–42 description is not required to be included in the part 71 description of Q–42. The WP is not a beginning or end point of Q–42, is not a point where the route changes one degree or more, is not used as a holding fix, and is not required as the maximum distance allowed between NAVAIDs, fixes, or WPs is not exceeded. As such, this rule removes the STRUK, IL, WP from the Q–42 part 71 description. This is an editorial change only and does not alter the alignment of the Q–42 route.

Finally, in the NPRM, the RIVRS, IL, route point listed in the T–478 description was incorrectly referenced and listed as a Fix. The RIVRS, IL, Fix was updated in the National Airspace System Resource (NASR) database prior to publication of the NPRM and is now described as a WP. This rule corrects that error and lists the RIVRS route point as a WP. This is an editorial change only to match the FAA's NASR database information and does not alter the alignment of the T–478 route.

Incorporation by Reference

Jet Routes are published in paragraph 2004, United States RNAV Routes (Q-routes) are published in paragraph 2006, VOR Federal airways are published in paragraph 6010(a), and United States RNAV Routes (T-routes) are published in paragraph 6011 of FAA Order JO 7400.11, Airspace Designations and
