

Maryland, Micronesia, Mississippi, North Carolina, Tennessee, Texas, Virginia, and West Virginia.

#### D. West

Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. Additionally, the LLSIL Excel file provides separate figures for Alaska, Hawaii, and Guam.

Data for selected Metropolitan Statistical Areas (MSAs) are also available. These are based on annual CPI-U changes for a 12-month period ending in December 2024. The updated LLSIL figures for these MSAs and 70 percent of LLSIL are also available in the LLSIL Excel file.

The LLSIL Excel file also lists each of the various figures at 70 percent of the updated 2025 LLSIL for family sizes of one to six persons. Please note, for families larger than six persons, an amount equal to the difference between the six-person and the five-person family income levels should be added to the six-person family income level for each additional person in the family. Where the poverty level for a particular family size is greater than the corresponding 70 percent of the LLSIL figure, the figure is shaded.

The LLSIL Excel file also indicates 100 percent of LLSIL for family sizes of one to six and is used to determine self-sufficiency as noted at section 3(36)(A)(ii) and section 3(36)(B) of WIOA.

## II. Use of These Data

Governors should designate the appropriate LLSILs for use within the State using the LLSIL Excel files on the website. The Governor's designation may be provided by disseminating information on MSAs and metropolitan and non-metropolitan areas within the State or it may involve further calculations. An area can be part of multiple LLSIL geographies. For example, an area in the State of New Jersey may have four or more LLSIL figures. All cities, towns, and counties that are part of a metro area in New Jersey are a part of the Northeast metropolitan; some of these areas can also be a portion of the New York City MSA. New Jersey also has areas that are part of the Philadelphia MSA, a less populated area in New Jersey may be a part of the Northeast non-metropolitan. If a workforce investment area includes areas that would be covered by more than one LLSIL figure, the Governor may determine which is to be used.

A State's policies and measures for the workforce investment system shall be accepted by the Secretary to the

extent that they are consistent with WIOA and its regulations.

## III. Disclaimer on Statistical Uses

It should be noted that publication of these figures is only for the purpose of meeting the requirements specified by WIOA as defined in the law and regulations. BLS has not revised the lower living family budget since 1981 and has no plans to do so. The four-person urban family budget estimates series were terminated by BLS in 1982. The CPI-U adjustments used to update LLSIL for this publication are not precisely comparable, most notably because certain tax items were included in the 1981 LLSIL, but are not in the CPI-U. Thus, these figures should not be used for any statistical purposes and are valid only for those purposes under WIOA as defined in the law and regulations.

## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Agency Information Collection Activities; Comment Request; Award Closure Statement Documents

**ACTION:** Notice.

**SUMMARY:** The Department of Labor's (DOL) Employment and Training Administration (ETA) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, "Award Closure Statement Documents." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

**DATES:** Consideration will be given to all written comments received by July 14, 2025.

**ADDRESSES:** A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Latonya Torrence by telephone at 202-693-3708 (this is not a toll-free number). For persons with a hearing or speech disability who need assistance to use the telephone system, please dial

711 to assess telecommunications relay services.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Grants Management, 200 Constitution Avenue NW, Room N-4716, Washington, DC 20210; by email: [Torrence.Latonya@dol.gov](mailto:Torrence.Latonya@dol.gov); or by fax 202-693-2705.

**FOR FURTHER INFORMATION CONTACT:** Latonya Torrence by telephone at 202-693-3708 (this is not a toll-free number) or by email at [Torrence.Latonya@dol.gov](mailto:Torrence.Latonya@dol.gov).

**SUPPLEMENTARY INFORMATION:** DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This ICR seeks an extension of the Award Closure Statement Documents, which are used by award recipients to submit required data as part of the closeout process after an award's period for performance end date.

These forms help to ensure award recipients provide a final documented accounting of activities conducted under the Federal award by allowing funds to be traced to a level of expenditure for establishing that such funds have been used in accordance with Federal statutes, regulations and terms and conditions of the award. The Uniform Guidance (2 CFR 200.302, 2 CFR 200.308, 2 CFR 200.311, 2 CFR 200.313, 2 CFR 200.316, 2 CFR 200.328, and 2 CFR 200.344) and the terms and conditions of all DOL awards, authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a

valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1205–0555.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

*Agency:* DOL–ETA.

*Type of Review:* Extension without changes.

*Title of Collection:* Award Closure Statement Documents.

*Form:* Detailed Statement of Costs, Government Property Certification, and Property Listing Form.

*OMB Control Number:* 1205–0555.

*Affected Public:* State, Local, and Tribal Governments.

*Estimated Number of Respondents:* 1,100.

*Frequency:* Annually.

*Total Estimated Annual Responses:* 3,300.

*Estimated Average Time per Response:* Varies.

*Estimated Total Annual Burden Hours:* 1,100 hours.

*Total Estimated Annual Other Cost Burden:* \$0.

*Authority:* 44 U.S.C. 3506(c)(2)(A).

**Susan Frazier,**

*Acting Assistant Secretary for Employment and Training, Labor.*

## **NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

**[NASA Document No: NASA–25–008; NASA Docket No: NASA–25–0002]**

### **National Environmental Policy Act; Notice of Availability of the Draft Supplemental Programmatic Environmental Assessment (PEA) for NASA's Scientific Balloon Program**

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of availability.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, as amended, NASA has prepared and issued a Draft Supplemental PEA that analyzes scientific balloon launch/flight operations originating from NASA's Balloon Program Office (BPO) facilities in Fort Sumner, New Mexico, Palestine, Texas, and the proposed Burns, Oregon scientific balloon launch facility. Written public input and comments on alternatives, environmental issues, or other matters associated with the scientific balloon program's activities are hereby requested.

**DATES:** Publication of this notice of availability starts a 30-day public comment period. Interested parties are invited to submit comments on environmental issues and the substance of the Draft Supplemental PEA by June 12, 2025.

**ADDRESSES:** Written comments and materials may be submitted through one of the following methods:

- *U.S. Mail:* Comments submitted via first class, registered, or certified mail should be addressed to Shari Miller, Mail Stop 250, NASA Goddard Space Flight Center, Wallops Flight Facility, 34200 Fulton Street, Wallops Island, VA 23337.

- *Federal E-Rulemaking Portal:* Written comments and recommendations should be sent within 30 days of publication of this notice. You may submit comments, identified by NASA Docket Number NASA–25–0002 to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments.

We encourage you to submit comments electronically through the Federal eRulemaking Portal at <http://www.regulations.gov>.

[www.regulations.gov](http://www.regulations.gov). If submitting your comments electronically, it is not necessary to also submit a hard copy. All comments received will be posted without change to <http://www.regulations.gov>. Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including any personal identifying information you provide—may be publicly available at any time. Please see **SUPPLEMENTARY INFORMATION** for additional electronic access for details on accessing the Draft Supplemental PEA.

#### **FOR FURTHER INFORMATION CONTACT:**

Shari Miller via telephone at 757–824–2327, or email at [shari.a.miller@nasa.gov](mailto:shari.a.miller@nasa.gov) and [gsfc-dl-nepa@nasa.gov](mailto:gsfc-dl-nepa@nasa.gov).

**SUPPLEMENTARY INFORMATION:** For over 35 years, NASA has launched and monitored the flights of scientific balloons launched from the BPO facilities at the Fort Sumner Municipal Airport in the Village of Fort Sumner, New Mexico, and in Palestine, Texas. Scientific balloons are used to collect scientific data and conduct research in the fields of geoscience, heliophysics, and astrophysics while operating in a near-space environment. Currently, NASA launches 31 scientific balloons each year. NASA proposes to increase the annual number of scientific balloons launched by adding a new launch site. In accordance with NEPA, NASA has prepared this Scientific Balloon Program Supplemental PEA to evaluate the potential environmental effects of adding a new scientific balloon launch site in Burns, Oregon and a new tracking station at Idaho Falls, Idaho. This site, to the north of the existing sites, would allow for larger cargos and longer float times, increasingly in demand. Up to ten scientific balloon flights per year would be launched from the proposed Burns launch site. In addition, construction, demolition, and renovation would take place at the Fort Sumner, Palestine, and proposed Burns launch sites and the Idaho Falls tracking site.

NASA has launched and monitored the flights of balloons from BPO launch facilities located in Fort Sumner, New Mexico and Palestine, Texas for over 35 years. Balloons are used to collect scientific data and conduct research on the atmosphere and near-space environments primarily in support of NASA's Science Mission Directorate. Significant finds, such as the discovery of the ozone hole above the Antarctic in the mid-1980s, have been made by
