NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

60-Day Notice for the “Blanket Justification for National Endowment for the Arts Funding Application Guidelines and Requirements.”

AGENCY: National Endowment for the Arts, National Foundation on the Arts and the Humanities.

ACTION: Notice of proposed collection; comment request.

SUMMARY: The National Endowment for the Arts (NEA), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data is provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents is properly assessed. Currently, the NEA is soliciting comments concerning the proposed information collection of: Blanket Justification for NEA Funding Application Guidelines and Reporting Requirements. A copy of the current information collection request can be obtained by contacting the office listed below in the address section of this notice.

DATES: Written comments must be submitted to the office listed in the address section below within 60 days from the date of this publication in the **Federal Register**. We are particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Can help the agency minimize the burden of the collection of information on those who are to respond, including through the electronic submission of responses.

ADDRESSES: Email comments to Daniel Beattie, Director, Office of Guidelines and Panel Operations, National Endowment for the Arts, at beattied@arts.gov.

Dated: June 23, 2022.

Daniel Beattie,

Director, Office of Guidelines and Panel Operations, National Endowment for the Arts.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection

Activities: Comment Request; National Science Foundation Small Business Innovation Research (SBIR)/Small Business Technology Transfer (STTR) Pre-Award Information Collection

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to establish this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by August 29, 2022 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email

to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation (NSF) Small Business Innovation Research (SBIR)/Small Business Technology Transfer (STTR) Pre-Award Information Collection.

OMB Control No.: 3145–New.

Expiration Date of Approval: Not applicable.

Abstract: The NSF SBIR/STTR programs focus on transforming scientific discovery into products and services with commercial potential and/or societal benefit. Unlike fundamental or basic research activities that focus on scientific and engineering discoveries, the NSF SBIR/STTR programs support the creation of opportunities to move fundamental science and engineering out of the lab and into the market at scale, through startups and small businesses representing deep technology ventures.

The NSF SBIR/STTR programs have two phases: Phase I and Phase II. Phase I is a 6–12 month experimental or theoretical investigation that allows the awardees to determine the scientific and technical feasibility, as well as the commercial merit of the idea or concept. Phase II further develops the proposed concept, with a goal of working toward the commercial launch of the new product, process, or service being developed.

The NSF SBIR/STTR programs request the Office of Management and Budget (OMB) approval of this clearance that will allow the programs to collect information from a selected group of applicants—those that have been reviewed by independent experts and that NSF Program Directors are considering recommending for funding—for the purpose of making a funding decision. This information includes, but is not exclusive to, a list of company officers and the corresponding ownership status of each company officer within the startup, whether the startup is associated or affiliated with other companies, whether there exist any relationships (personal, financial, and/or professional) between project personnel, and the locations of all the facilities where significant research will be performed for the proposed project. Such data will enable the NSF Program Directors to evaluate a given company's business structure, ascertain the level of commitment of the Principal Investigator (PI) and co-PIs to the startup venture, and identify conflicts of interests (if any), as part of the due diligence process that the programs undertake to verify there are no fraudulent or inappropriate business practices prior to recommending the small business for an award.

Following standard OMB requirements, NSF will request OMB approval in advance and provide OMB with a copy of the form containing these questions. Data collected will be used strictly for due-diligence, auditing, and/or legal purposes, and are needed for effective pre-award management,

administration, and/or program monitoring. The applicants, if being considered for award, will only be asked to submit a signed form containing their responses to the questions once for *each* NSF SBIR/STTR proposal (Phase I and II, if applicable). The data collection burden to the selected applicants will be limited to no more than 10 minutes of the respondents' time in each instance. Summaries of the collected data are also being used to respond to queries from Congress, the Small Business Administration, the public, NSF's external merit reviewers who serve as advisors, including Committees of Visitors, NSF's Office of the Inspector General, and other pertinent stakeholders.

Respondents: PIs listed on the NSF SBIR/STTR proposals.

Estimated Number of Annual Respondents: 750.

Burden on the Public: The overall annualized cost to the respondents is estimated to be \$5,500. The following table shows the annualized estimate of costs to PIs who are generally university assistant professors. This estimated hourly rate is based on a report from the American Association of University Professors, "Annual Report on the Economic Status of the Profession, 2020–21," *Academe*, March–April 2021, Survey Report Table 1. According to this report, the average salary of an assistant professor across all types of doctoral-granting institutions was \$91,408. When divided by the number of standard annual work hours (2,080), this calculates to approximately \$44 per hour.

Respondent type	Number of respondents	Burden hours per respondent	Average hourly rate	Estimated annual cost
PIs	750	0.167	\$44	\$5,500
Total	5,500

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–0320; NRC–2022–0131]

TMI–2 Solutions, LLC; Three Mile Island Station, Unit No. 2

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment request; opportunity to comment, request a hearing, and to petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering

issuance of an amendment to Possession Only License (POL) No. DPR–73, issued to TMI–2 Solutions, LLC (TMI–2 Solutions) for Three Mile Island Station, Unit No. 2 (TMI–2). The NRC received and is considering approval of one amendment request. Pursuant to NRC regulations, TMI–2 Solutions proposes an amendment to the POL for TMI–2. This proposed license amendment request, upon approval, would revise the POL to replace the reference to site physical security, guard training and qualification, and safeguards contingency plans maintained by Unit 1
