SUPPLEMENTARY INFORMATION:

I. Background

The General Services Administration (GSA) is amending the General Services Administration Acquisition Regulation (GSAR) to revise sections of GSAR part 517 that provide requirements for special contracting methods.

GSA published a proposed rule in the **Federal Register** at 73 FR 32274 on June 6, 2008 <http://www.gpo.gov/fdsys/pkg/FR-2008-06-06/pdf/E8-12613.pdf> as part of the General Services Administration Acquisition Manual (GSAM) Rewrite initiative undertaken by GSA to update the GSAM to maintain consistency with the Federal Acquisition Regulation (FAR). The GSAM incorporates the GSAR as well as internal agency acquisition policy. No comments were

received in response to the **Federal Register** Notice for the proposed rule.

The case is being issued as a second proposed rule due to the additional edits made to GSAR part 517 and the length of time since the proposed rule was published in 2008.

II. Discussion and Analysis

A. Summary of Significant Changes

The second proposed rule:

- Updates the statutes cited in GSAR 517.109.
- Deletes GSAR 517.200(b), GSAR 517.202(iv), GSAR 517.202(v), and GSAR 517.207(a) and makes conforming changes.
- Replaces the content of GSAR 517.203 with new text, cross referencing the requirements in FAR 22.407 when using option provisions that extend the term of a construction contract.
- Adds a new paragraph at GSAR 517.207(b) that reminds contracting officers to seek new wage determinations when exercising options that extend the term of the contract.
- Addresses other administrative and typographical updates.

Note: The following proposed changes were not retained in the second proposed rule:

- 517.202(c) was not retained as FAR 7.105 already requires contracting officers to address options in acquisition plans.
- 517.203(c) was not retained as availability of funds is part of the FAR 17.207 determination.

B. Analysis of Public Comments

No comments on the proposed rule were received from the public by the August 5, 2008 closing date.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

The General Services Administration does not expect this proposed rule to

have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the revisions are administrative in nature. The changes merely update and reorganize existing GSAR coverage. Therefore, the agency did not perform an Initial Regulatory Flexibility Analysis (IRFA).

GSA will also consider comments from small entities concerning the subparts affected by the rule consistent with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, GSAR case 2007–G500, in correspondence.

V. Paperwork Reduction Act

The Paperwork Reduction Act does not apply as the rule does not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. chapter 35.
