

*ammobates*) (ABM) incidental to the construction of a single-family home (project) in the City of Orange Beach, Baldwin County, Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and the Service's preliminary determination that this HCP qualifies as low-effect, categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

### Project

The applicant requests a 50-year ITP to take ABM by converting approximately 0.20 acre (ac) of occupied ABM foraging and sheltering habitat incidental to the construction of a single-family home located on a 1.397-ac parcel in Baldwin County, Alabama. The previous single-family home that was located on the site was destroyed in 2004 by Hurricane Ivan. The site was left fallow, and 0.832 ac of ABM foraging and sheltering habitat formed on the site. The applicant would impact 0.20 ac of the occupied 0.832 ac of ABM habitat in constructing the single-family home. An existing concrete driveway (0.053 ac) will be used in the redevelopment plan to minimize new impacts to the species. The concrete driveway may need to be replaced and, if it is replaced, additional concrete will be used. The applicant proposes to donate a \$2.30-per-square-foot in-lieu fee totaling \$20,037.60 to the Alabama Coastal Heritage Trust (AHT) for the 0.20-ac impact. AHT will use the donation to manage, maintain, or acquire ABM habitat within the City of Orange Beach or elsewhere within the range of the ABM.

The applicant also proposes to implement standard minimization and mitigation measures to remove the remaining nonnative vegetation on 0.429 ac on the site and restore the area to ABM habitat. The standard mitigation and minimization measures to be implemented on the site include installing sea turtle-friendly lighting and tinted windows, landscaping with native vegetation, enhancing the frontal dune area, constructing a concrete driveway that will not disperse in a storm surge, implementing refuse-control measures during construction and also requiring that future residents

utilize such measures, and restoring ABM habitat after tropical storms. Free-roaming cats and the use of exterior rodenticide will be prohibited within the parcel. Post-construction ABM habitat on site should total 1.14 ac of the 1.397-ac parcel. The Service would require the applicant to donate the total contribution to AHT prior to engaging in any activities on the parcel that are associated with the project.

### Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

### Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, landscaping, and the proposed mitigation and minimization measures, would individually and cumulatively have a minor or negligible effect on the Alabama beach mouse and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 40 CFR 1506.6 and 43 CFR 46.305. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

### Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take on the species. We will consider all of the above in determining whether the permit issuance criteria of section

10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER0027719 to Rhonda H. Barber.

### Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

### Bureau of Land Management

[LLCO956000 L14400000.BJ0000 22X]

#### Notice of Filing of Plats of Survey, Colorado

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of official filing.

**SUMMARY:** The plats of survey of the following described lands are scheduled to be officially filed in the Bureau of Land Management (BLM), Colorado State Office, Lakewood, Colorado, 30 calendar days from the date of this publication. The surveys, which were executed at the request of the U.S. Forest Service, the National Park Service, and the BLM, are necessary for the management of these lands.

**DATES:** Unless there are protests of this action, the plats described in this notice will be filed on April 18, 2022.

**ADDRESSES:** You may submit written protests to the BLM Colorado State Office, Cadastral Survey, 2850 Youngfield Street, Lakewood, CO 80215–7210.

**FOR FURTHER INFORMATION CONTACT:** Janet Wilkins, Chief Cadastral Surveyor for Colorado, telephone: (303) 239–3818; email: [j1wilkin@blm.gov](mailto:j1wilkin@blm.gov).

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Ms. Wilkins. Individuals outside the United States should use the

relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** The supplemental plat of the NW¼SE¼ of section 11 in Township 49 North, Range 8 West, New Mexico Principal Meridian, Colorado, was accepted on November 2, 2021.

The plat, in two sheets, incorporating the field notes of the dependent resurvey and subdivision of section 5 in Township 28 South, Range 70 West, Sixth Principal Meridian, Colorado, was accepted on November 16, 2021.

The plat and field notes of the dependent resurvey and subdivision of section 25 in Township 8 North, Range 73 West, Sixth Principal Meridian, Colorado, was accepted on December 1, 2021.

The plat and field notes of the dependent resurvey and survey in Township 50 North, Range 8 West, New Mexico Principal Meridian, Colorado, was accepted on December 16, 2021.

The plat and field notes of the dependent resurvey and subdivision of section 34 in Township 5 South, Range 72 West, Sixth Principal Meridian, Colorado, was accepted on December 29, 2021.

The plat, in two sheets, incorporating the field notes of the dependent resurvey in Township 10 North, Range 85 West, Sixth Principal Meridian, Colorado, was accepted on January 18, 2022.

A person or party who wishes to protest any of the above surveys must file a written notice of protest within 30 calendar days from the date of this publication at the address listed in the **ADDRESSES** section of this notice. A statement of reasons for the protest may be filed with the notice of protest and must be filed within 30 calendar days after the protest is filed. If a protest against the survey is received prior to the date of official filing, the filing will be stayed pending consideration of the protest. A plat will not be officially filed until the day after all protests have been dismissed or otherwise resolved.

Before including your address, phone number, email address, or other personal identifying information in your protest, please be aware that your entire

protest, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Notice of Proposed Withdrawal, Transfer of Administrative Jurisdiction, and Opportunity for Public Meeting for the Dash Lake Waterfowl Production Area, North Dakota

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of proposed withdrawal.

**SUMMARY:** At the request of the United States Fish and Wildlife Service (FWS) and subject to valid existing rights, the Secretary of the Interior proposes to withdraw 13.50 acres of public land from appropriation under the public land laws, including location and entry under the United States mining laws, but not from leasing under the mineral and geothermal leasing laws, for 100 years, and transfer administrative jurisdiction to FWS to protect and reserve the land for management as part of the Dash Lake Waterfowl Production Area in Towner County, North Dakota. Publication of this notice temporarily segregates the land for up to 2 years from appropriation under the public land laws, including location and entry under the United States mining laws, subject to valid existing rights, but not from leasing under the mineral and geothermal leasing laws, while the application is being processed. The notice initiates a 90-day public comment period and announces an
