FOR FURTHER INFORMATION CONTACT:

Shasta McClenahan, Ph.D., or Amy Hapeman at (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject amendment is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 26663, issued on January 20, 2024 (89 FR 9838, February 12, 2024), authorizes the research on humpback whales (*Megaptera novaeangliae*) and nine other cetacean species in southeast Alaska to study

distribution, abundance trends, acoustic ecology, and health. Authorized research methods during vessel and unmanned aircraft surveys (UAS) include photo-id, photogrammetry, behavioral observations, underwater photography, passive acoustic recordings, acoustic playbacks, biological sampling (exhaled air, sloughed skin, fecal, skin and blubber biopsy), and suction-cup tags. Non-listed pinnipeds may be unintentionally harassed during research. One amendment to the permit changed the Responsible Party (No. 26663-01, February 26, 2025). The permit holder is requesting the permit be amended to increase takes of gray whales (*Eschrichtius robustus*) due to an increased presence in the study area. Annually up to 400 gray whales (an increase from 200) would be studied in the same manner as currently authorized for Level B harassment activities. Additionally, up to 100 gray whales could be biopsy sampled and 50 whales could be biopsy sampled and suction-cup tagged annually following the currently permitted methods for humpback whales. The applicant is also updating methods for suction-cup tags to include deployment by UAS. The permit expires on February 15, 2029.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 7, 2025.

Kimberly Damon-Randall,

Director, Office of Protected Resources,
National Marine Fisheries Service.
