5.90–6.00	167.1–169.9	3.00	1.36	24.40	11.06	13.70	6.21

NOTES: (1) All test load weights are bone dry weights.

(2) Allowable tolerance on the test load weights are  $\pm 0.10$  lbs (0.05 kg).

(4) Representations. GE may make representations about the energy use of its clothes washer products for compliance, marketing, or other purposes only to the extent that such products have been tested in accordance with the provisions outlined above and such representations fairly disclose the results of such testing.

(5) This waiver shall remain in effect consistent with the provisions of 10 CFR 430.27(m).

(6) This waiver is issued on the condition that the statements, representations, and documentary materials provided by the petitioner are valid. DOE may revoke or modify this waiver at any time if it determines the

factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of the basic models' true energy consumption characteristics.

(7) Grant of this waiver does not release a petitioner from the certification requirements set forth at 10 CFR 430.62.

Issued in Washington, DC, on December 3, 2010.

Cathy Zoi,  
Assistant Secretary, Energy Efficiency and  
Renewable Energy.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP11-40-000]

### East Cheyenne Gas Storage, LLC; Notice of Amendment

December 3, 2010.

Take notice that on November 19, 2010, East Cheyenne Gas Storage, LLC (East Cheyenne), 10901 W. Toller Drive, Suite 200, Littleton, Colorado 80127, filed in the captioned docket an application under section 7 of the Natural Gas Act (NGA), as amended, and part 157 of the Commission's

regulations for an order amending the certificate of public convenience and necessity issued in Docket No. CP10-34-000 to authorize East Cheyenne to make certain changes to its certificated Project, which relate primarily to the design and number of wells to be employed in the initial Project development, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions concerning this application may be directed to James F. Bowe, Jr., Dewey & LeBoeuf LLP, 1101 New York Avenue, NW., Washington, DC 20005-4213, at (202) 346-8000.

East Cheyenne also seeks reaffirmation of its previously granted authorization to charge market-based rates for its storage and hub services, as well as the various waivers granted in the order issuing certificates. East Cheyenne also requests that the Commission rescind the pre-granted abandonment authorization issued to East Cheyenne because East Cheyenne no longer plans to construct the temporary West Peetz Compressor Station. East Cheyenne refers to this project as the "Well Plan Amendment."

East Cheyenne states that it does not propose any change in capacity, pressures, injection rates or withdrawal rates authorized by the Commission in the original certificate order in this Application. East Cheyenne represents that the Well Plan Amendment will have minimal impact on the natural environment and on adjacent landowners.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental

Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the

Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* December 27, 2010.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 1651-059]

#### Lower Valley Energy; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

December 3, 2010.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Application Type:* Amendment of hydroelectric license.

b. *Project No:* 1651-059.

c. *Date Filed:* November 17, 2010.

d. *Applicant:* Lower Valley Energy, Inc.

e. *Name of Project:* Swift Creek Hydroelectric Project.

f. *Location of Project:* On Swift Creek, a tributary to the Salt River, in Lincoln County, Wyoming, partially within the Bridger-Teton National Forest.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r.

h. *Applicant Contact:* Mr. Wade Hirschi, Compliance Officer, Lower
