POLICY JUSTIFICATION**Pakistan – Aerostat L-88 Radar System**

The Government of Pakistan has requested a possible sale of six Aerostat L-88 Radar Systems, spare and repair parts, facility construction and support, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics personnel services and other related elements of logistics support. The estimated cost is \$155 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important partner in the war on terrorism in South Asia.

The radar systems will add to Pakistan's ability to monitor its western borders in support of OPERATION ENDURING FREEDOM and control narcotics trade activities. Specifically, the radar systems will be used to monitor ground traffic and low-flying aircraft along this border. The Aerostat is a relatively low technology, fixed site system which Pakistan can easily absorb and utilize within its existing structure.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be the Lockheed Martin-Akron of Akron, Ohio and/or TCOM, L.P. of Columbia, Maryland. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of eight each U.S. Government and contractor representatives for annual program management and technical reviews to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Science Board****AGENCY:** Department of Defense.**ACTION:** Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Defense Against

Unconventional Use of Nuclear Weapons Against the U.S. Homeland will meet in closed session on September 17-18, 2002, at Lawrence Livermore National Laboratory and October 15-16, 2002, in Arlington, VA. This Task Force will review the Department of Defense's responsibilities, current capabilities, and the scope of activities conducted by DoD to ensure its future preparedness to prevent, deter, detect, identify, warn, defend against, respond to, and attribute attack of the U.S. homeland by unconventional delivery of conventional and unconventional nuclear weapons, as well as radiological weapons.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Task Force will determine the adequacy of the U.S. ability to detect, identify, respond, and prevent unconventional nuclear attacks by terrorist or sub-national entities. The Task Force will also identify capabilities of the Department to provide protection against such nuclear attacks in support of national capabilities in homeland defense.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Pub. L. No. 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

DEPARTMENT OF DEFENSE**Department of the Army**

Reissuance of Military Traffic Management Command Military Freight Rules Publication 1B as Military Freight Rules Publication 1C

AGENCY: Department of the Army, DoD.**ACTION:** Notice; Request for comments.

SUMMARY: The Military Traffic Management Command (MTMC) as the Department of Defense (DOD) Traffic Manager for surface and surface inter-modal traffic management services (Defense Transportation Regulation vol. 2, pgs 201-13 through 201-14) hereby cancels Military Freight Traffic Rules Publication (MFTRP) 1B in its entirety and replaces it with the revised MFTRP 1C outlined herein, effective November 1, 2002. The purpose of this issuance is to incorporate significant changes to the Security Service rules due to recent world events, add interim changes made since the last revision, update addresses and contact information, and introduce new items to the motor carriers doing business with DOD shippers. Motor carriers and anyone interested may view the proposed MFTRP 1C on the Internet at www.mtmc.army.mil with proposed changes highlighted. After accessing the MTMC web site, interested parties should enter the "Publications" area,
