SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we initiate our process for developing a CCP for the Sonny Bono Salton Sea NWR Complex, including the Sonny Bono Salton Sea NWR in Imperial County, CA, and the Coachella Valley NWR in Riverside County, CA. This notice complies with our CCP policy to (1) advise other Federal and State agencies, Tribes, and the public of our intention to conduct detailed planning on this refuge complex, and (2) obtain suggestions and information on the scope of issues to consider in the environmental document and during development of the CCP.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We intend to review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the National Wildlife Refuge System was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the National Wildlife Refuge System mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals, objectives, and strategies that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the National Wildlife Refuge System.

Our CCP process provides opportunities for participation by Tribal, State, and local governments; agencies; organizations; and the public. We will be contacting identified stakeholders and individuals at this time for initial input. If you would like to meet with planning staff or would like to receive periodic updates, please contact us (*see ADDRESSES* section). We anticipate holding public meetings for initial comments and when alternative management scenarios have been identified. At this time we encourage comments in the form of issues, concerns, ideas, and suggestions for the future management of the Sonny Bono Salton Sea NWR and the Coachella Valley NWR.

We will conduct the environmental review of this project in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 *et seq.*); NEPA regulations (40 CFR parts 1500–1508); other appropriate Federal laws and regulations; and our policies and procedures for compliance with those laws and regulations.

Sonny Bono Salton Sea National Wildlife Refuge Complex

The Sonny Bono Salton Sea NWR Complex consists of the Sonny Bono Salton Sea NWR and the Coachella Valley NWR. The Sonny Bono Salton Sea NWR was established as a 32,766-acre sanctuary and breeding ground for birds and other wildlife in 1930 (Executive Order 5498). Additional leased lands have been added to the Refuge under the authorities of the Migratory Bird Conservation Act (16 U.S.C. 715d), "for use as an inviolate sanctuary, or for any other management propose, for migratory birds," and the Lea Act (16 U.S.C. 695), "for the management and control of migratory waterfowl, and other wildlife."
