

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**[Notice (01-059)]****NASA Advisory Committees; Renewal of NASA's Advisory Committee Charters****AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Notice of Renewal of the Charters of NASA's Advisory Committees.

SUMMARY: Pursuant to sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act (Pub. L. 92-463), and after consultation with the Committee Management Secretariat, General Services Administration, the Administrator of the National Aeronautics and Space Administration has determined that a renewal of seven Agency-established advisory committees is in the public interest in connection with the performance of duties imposed upon NASA by law. The structure and duties of these committees are unchanged. However, the Life and Microgravity Sciences and Applications Advisory Committee has been renamed to the Biological and Physical Research Advisory Committee. This change is consistent with the renaming of the Office of Life and Microgravity Sciences and Applications to the Office of Biological and Physical Research. The Aero-space Technology Advisory Committee has been renamed the Aerospace Technology Advisory Committee.

The seven advisory committees are:

- NASA Advisory Council
- Aerospace Technology Advisory Council
- Biological and Physical Research Advisory Committee
- Earth System Science and Applications Advisory Committee
- Minority Business Resources Advisory Committee
- Space Science Advisory Committee
- Technology and Commercialization Advisory Committee

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**[Notice (01-058)]****NASA Advisory Committees; Renewal of the Aerospace Safety Advisory Panel****AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Notice of Renewal of the Charter of NASA's Aerospace Safety Advisory Panel.

SUMMARY: Pursuant to sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act (Pub. L. 92-463), and after consultation with the Committee Management Secretariat, General Services Administration, the Administrator of the National Aeronautics and Space Administration has determined that a renewal of the Aerospace Safety Advisory Panel (ASAP) is in the public interest in connection with the performance of duties imposed upon NASA by law. The structure and duties of the ASAP remain unchanged. The charter for the ASAP now includes additional details on the aspects of safety that the Panel should include in their studies and advice to the NASA Administrator. These aspects of safety are fully consistent with the Agency Safety Initiative, a major commitment to safety as NASA's number one priority. The charter also addresses membership terms. In the case of panel members, the Administrator can extend members' service by no more than six years beyond their original 6 year term, thereby limiting service to a total of 12 years. Also, consultants will be appointed for a specific task and will serve no longer than the time required to complete that specific task, but not longer than 1 year. These provisions will ensure that the Panel has balanced representation of membership.
