NATIONAL TRANSPORTATION SAFETY BOARD

Public Forum—Cruise Ships: Examining Safety, Operations and Oversight

On Tuesday and Wednesday, March 25–26, 2014, The National Transportation Safety Board (NTSB) will convene a forum titled, “Cruise Ships: Examining Safety, Operations and Oversight.” The forum will begin at 9:00 a.m. on both days and is open to all. Attendance is free, and no registration is required. NTSB Chairman Deborah A.P. Hersman will serve as the Presiding Officer of the forum, and all five NTSB board members will serve as members of the Board of Inquiry. The forum is organized into six issue areas:

- Regulatory Framework
- Accident Investigations
- Ship Design and Fire Protection
- Vessel Operations
- Emergency Response
- Corporate Oversight

The forum will also explore some recent high-profile accidents. The forum’s goal is to encourage dialogue among industry stakeholders, regulators, and the general public to better understand cruise ship safety and oversight. Invited panelists will include regulators such as the U.S. Coast Guard, vessel owners and operators, researchers and industry groups. Below is the preliminary agenda:

Tuesday, March 25, 2014 (9:00 a.m.–5:00 p.m.)

1. Opening Statement by Chairman Hersman.
2. Opening presentation by the U.S. Coast Guard.
3. Introduction of the Technical Panels and Panelists.
4. Presentations from Panels One, Two, and Three and questions from the Board of Inquiry and the Technical Panels.
5. Closing Statement by Chairman Hersman

Wednesday, March 26, 2014 (9:00 a.m.–5:00 p.m.)

1. Opening Statement by Chairman Hersman.
2. Opening presentation by the Cruise Lines International Association.
3. Introduction of the Technical Panels and Panelists.

4. Presentations from Panels Four, Five, and Six and questions from the Board of Inquiry and the Technical Panels.

5. Closing statement by Chairman Hersman.

The full agenda and a list of participants can be found at: <http://www.nts.gov/news/events/2014/cruiseshipforum/index.html>.

The forum will be held in the NTSB Board Room and Conference Center, located at 429 L’Enfant Plaza E. SW., Washington, DC. The public can view the forum in person or by live webcast at <http://www.nts.gov>. Webcast archives are generally available by the end of the next day following the forum, and webcasts are archived for a period of 3 months after the date of the event.

Individuals requiring reasonable accommodation and/or wheelchair access directions should contact Ms. Rochelle Hall at Rochelle.hall@nts.gov or by telephone at (202) 314–6305 by Wednesday, March 19, 2014.

NTSB Media Contact: Eric Weiss—eric.weiss@nts.gov.

NTSB Forum Managers: Liam LaRue—liam.larue@nts.gov, Barry Strauch, Ph.D.—barry.strauch@nts.gov.

Candi R. Bing,

Federal Register Liaison Officer.

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2013-0226]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on November 4, 2013 (78 FR 66076).

1. *Type of submission, new, revision, or extension:* Revision.

2. *The title of the information collection:* NRC Form 4, “Cumulative Occupational Dose History.”

3. *Current OMB approval number:* 3150-0005.

4. *The form number if applicable:* NRC Form 4.

5. *How often the collection is required:* On occasion. The NRC does not collect NRC Form 4. However, NRC inspects the NRC Form 4 records at NRC-licensed facilities.

6. *Who will be required or asked to report:* NRC licensees who are required to comply with Part 20 of Title 10 of the *Code of Federal Regulations* (10 CFR).

7. *An estimate of the number of annual responses:* 227,846 (223,700 third party disclosure + 4,146 recordkeepers).

8. *The estimated number of annual respondents:* 4,146.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 31,234 (24,523 recordkeeping + 6,711 third party disclosure).

10. *Abstract:* The NRC Form 4 is used to record the summary of an occupational worker’s cumulative occupational radiation dose, including prior occupational exposure and the current year’s occupational radiation exposure. The NRC Form 4 is used by licensees, and inspected by the NRC, to ensure that occupational radiation doses do not exceed the regulatory limits specified in 10 CFR 20.1501.

The public may examine and have copied for a fee publicly-available documents, including the final supporting statement, at the NRC’s Public Document Room, Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. The OMB clearance requests are available at the NRC’s Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/>.

The document will be available on the NRC’s home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by April 10, 2014. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Danielle Y. Jones, Desk Officer, Office of Information and Regulatory Affairs (3150-0005), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be emailed to Danielle_Y_Jones@omb.eop.gov or

submitted by telephone at 202-395-1741.

The Acting NRC Clearance Officer is Kristen Benney, telephone: 301-415-6355.

Dated at Rockville, Maryland, this 5th day of March 2014.

For the Nuclear Regulatory Commission.

Brenda Miles,

Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0148]

Proposed Ross Project in Crook County Wyoming for In-Situ Leach Uranium Milling Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Final supplemental environmental impact statement; issuance.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) published the Final Supplemental Environmental Impact Statement (SEIS) (NUREG-1910, Supplement 5) for the Ross *In-Situ* Uranium Recovery (ISR) Project (Ross Project). By letter dated January 4, 2011, Strata Energy, Inc. (Strata) submitted an application to the NRC for a new source and byproduct materials license for the Ross Project, which Strata proposes to be located in Crook County, Wyoming. Strata is proposing to recover uranium from the Ross Project site using the ISR process.

ADDRESSES: Please refer to Docket ID NRC-2011-0148 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this action by the following methods:

- *Federal Rulemaking Web site:* Go to: <http://www.regulations.gov> and search for Docket ID NRC-2011-0148. Address questions about NRC dockets to Ms. Carol Gallagher; telephone: 301-287-3422; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search,

select "*ADAMS Public Documents*" and then select "*Begin Web-based ADAMS Search*." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, or 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this notice (if that document is available in ADAMS) is provided the first time that a document is referenced. The Final SEIS (NUREG-1910, Supplement 5) is available in ADAMS under Accession No. ML14056A096.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Johari Moore, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7694, email: Johari.Moore@nrc.gov.

SUPPLEMENTARY INFORMATION: Under the NRC's environmental protection regulations in Part 51 of Title 10 of the *Code of Federal Regulations* (10 CFR), that implement the National Environmental Policy Act of 1969 (NEPA), preparation of an Environmental Impact Statement (EIS) or supplement to an EIS (SEIS) is required for issuance of a license to possess and use source material for uranium milling (see 10 CFR 51.20(b)(8)).

In May 2009, the NRC staff issued NUREG-1910, "Generic Environmental Impact Statement for *In-Situ* Leach Uranium Milling Facilities" (herein referred to as the GEIS). In the GEIS, NRC assessed the potential environmental impacts from construction, operation, aquifer restoration, and decommissioning of an ISR facility located in four specific geographic regions of the western United States. The proposed Ross Project is located within the Nebraska-South Dakota-Wyoming Uranium Milling Region identified in the GEIS. This Final SEIS supplements the GEIS and incorporates by reference relevant portions from the GEIS, and uses site-specific information from the applicant's license application and other independent sources to fulfill the requirements in 10 CFR 51.20(b)(8).

The Final SEIS was prepared in response to an application submitted by Strata by letter dated January 4, 2011. The applicant proposes the construction, operation, aquifer

restoration, and decommissioning of an ISR facility to recover uranium.

The Final SEIS was prepared by the NRC and its contractor, Attenuation Environmental Company (AEC), in cooperation with the U.S. Bureau of Land Management (BLM), in compliance with NEPA, and the NRC's regulations for implementing NEPA (10 CFR Part 51).

The proposed Ross Project will be located approximately 34.6 kilometers (km) (21.5 miles [mi]) north of the town of Moorcroft, Wyoming. The proposed facility would encompass approximately 697 hectares (ha) (1,721 acres [ac]).

The Final SEIS is being issued as part of the NRC's process to decide whether to issue a license to Strata pursuant to 10 CFR Part 40. In this Final SEIS, the NRC staff has assessed the potential environmental impacts from the construction, operation, aquifer restoration, and decommissioning of the proposed Ross Project. The NRC staff assessed the impacts of the proposed action and its alternatives on land use; historical and cultural resources; visual and scenic resources; climatology, meteorology and air quality; geology, minerals and soils; water resources; ecological resources; socioeconomic; environmental justice; noise; traffic and transportation; public and occupational health and safety; and waste management. Additionally, the Final SEIS analyzes and compares the benefits and costs of the proposed action. In preparing this Final SEIS, the NRC staff also considered, evaluated, and addressed the public comments received on the Draft SEIS published on March 29, 2013 (78 FR 19330). Appendix B of the Final SEIS captures the public's comments and the NRC's responses.

In preparing the Final SEIS, the NRC staff evaluated site-specific data and information from the Ross Project to determine if Strata's proposed activities and the site characteristics were consistent with those evaluated in the GEIS. The NRC then determined which relevant sections of, and impact conclusions in, the GEIS could be incorporated by reference. The NRC staff also determined if additional data or analysis was needed to assess the potential environmental impacts for a specific environmental resource area. The NRC documented its assessments and conclusions in the Final SEIS.

In addition to the action proposed by Strata, the NRC staff addressed the no-action alternative, as well as the North Ross site alternative, in which the central processing plant (CPP), auxiliary and support buildings and structures,
