Vigue, Peter A.; Notice of Filing

Take notice that on April 26, 2012, Peter A. Vigue submitted for filing, a supplement to the application for authority to hold interlocking positions filed on March 6, 2012, pursuant to section 305(b) of the Federal Power Act, 16 U.S.C. 825d(b) (2011) and section 45.8 of Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 45.8 (2011).

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to

serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP12-6-000]

El Paso Natural Gas Company; Supplemental Notice of Intent To Prepare an Environmental Assessment for the Proposed Willcox Lateral 2013 Expansion Project and Request for Comments on Environmental Issues

As previously noticed on December 2, 2011, and supplemented herein, the staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Willcox Lateral 2013 Expansion Project (Project) proposed by El Paso Natural Gas Company (EPNG). The Project involves modification, construction, and operation of certain meter, compressor, and lateral facilities in Cochise County, Arizona to accommodate a proposed increase in the maximum allowable operating pressure (MAOP) of the Willcox Lateral. The Commission will use the EA in its decision-making process to determine whether the Project is in the public convenience and necessity.

Since issuance of the Commission's initial notice of intent (NOI) for the Project, EPNG has determined that additional modifications are necessary

to operate the Willcox Lateral at the proposed increase in MAOP and has identified 21 public road crossings where replacement with thicker-walled pipe would be required. In addition, EPNG would install Over Pressure Protection (OPP) at the Line 2163/2164 Bifurcation Facility and limit the downstream facilities to an MAOP of 1219 pounds per square inch gauge. EPNG states the replacements are required to comply with the Pipeline Hazardous Material Safety Administration design factor requirements for public road crossings as codified in 49 Code of Federal Regulations (CFR) 192.111(b)(1) and (2).

This Supplemental NOI addresses these changes and announces the opening of a scoping period the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the scoping period will close on May 30, 2012.

Further details on how to submit written comments are in the Public Participation section of this notice.

This notice is being sent to the Commission's current environmental mailing list for the entire Project. The mailing list includes the affected 28 landowners of the 21 public roads crossings where replacement with thicker-walled pipe would be required. EPNG has notified these landowners affected by the road crossing replacements. State and local government representatives should notify their constituents of this proposed Project and encourage them to comment on their areas of concern.

EPNG provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility on My Land? What Do I Need To Know?" This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

The Project involves the modification of EPNG's existing pipeline system and installation of new facilities in Cochise County, Arizona including:

- A new 400-foot-long, 16-inch-diameter lateral pipeline to connect the Douglas Meter Station to EPNG's existing Line No. 2164;
- Replacement of compressor modules and station yard piping at the existing Willcox Compressor Station;
