*Availability of Meeting Materials:* A meeting agenda and other materials for the meeting will be placed on the CASAC Web site on the Web page reserved for the teleconferences, accessible through the calendar link on the blue navigation sidebar at <http://www.epa.gov/casac>.

*Procedures for Providing Public Input:* Public comment for consideration by EPA’s federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a federal advisory committee to consider as it develops advice for EPA. They should send their comments directly to the Designated Federal Officer for the relevant advisory committee. *Oral Statements:* To be placed on the public speaker list for the teleconference, interested parties should notify Dr. Holly Stallworth, DFO, by e-mail no later than November 2, 2010.

Individuals making oral statements will be limited to three minutes per speaker. *Written Statements:* Written statements for the teleconference should be received in the SAB Staff Office by November 2, 2010 so that the information may be made available to the CASAC Panel for its consideration prior to this meeting. Written statements should be supplied to the DFO via e-mail (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

*Accessibility:* For information on access or services for individuals with disabilities, please contact Dr. Stallworth at the phone number or e-mail address noted above, preferably at least ten days prior to the teleconference, to give EPA as much time as possible to process your request.

Dated: October 7, 2010.

## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

October 6, 2010.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

**DATES:** Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 14, 2010. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via Internet at [Nicholas\\_A\\_Fraser@omb.eop.gov](mailto:Nicholas_A_Fraser@omb.eop.gov) and to the Federal Communications Commission. **FOR FURTHER INFORMATION CONTACT:** For additional information, contact Judith B. Herman at 202-418-0214 or via the Internet at [Judith-B.Herman@fcc.gov](mailto:Judith-B.Herman@fcc.gov).

**SUPPLEMENTARY INFORMATION:**

OMB Control Number: 3060–1139.  
 Title: Residential Fixed Broadband  
 Services Testing and Measurement.  
 Form No.: N/A.

Type of Review: Extension of a  
 currently approved collection.

Respondents: Individuals or  
 households; and business or other for-  
 profit.

Number of Respondents: 11,016  
 respondents; 11,016 responses.

Estimated Time per Response: 1 hour  
 for respondents based on a 10 minute  
 initial sign-up for the panel, 30 minutes  
 to connect and install the hardware  
 appliance, and two 10-minute  
 validation contacts to be conducted by  
 the vendor over the course of the study  
 period. The 16 ISP partners  
 participating in the study is estimated at  
 200 hours per response per partner for  
 all participation activities.

Frequency of Response: Biennial  
 reporting requirement and third party  
 disclosure requirement.

Obligation to Respond: Voluntary.  
 Statutory authority for this information  
 collection is contained in the Broadband  
 Data Improvement Act of 2008, Public  
 Law 110–385, Stat 4096 § 103(c)(1).

Total Annual Burden: 14,200 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: This  
 information collection affects  
 individuals or households. However,  
 the collection of personally identifiable  
 information (PII) is not being collected,  
 made available or accessible by the  
 Commission but instead by third parties  
 including SamKnows, a third party  
 contractor, and ISP Partners.

Nature and Extent of Confidentiality:  
 No personally identifying information  
 (PII) will be transmitted to the  
 Commission from the contractor as a  
 matter of vendor policy. SamKnows  
 maintains a series of administrative,  
 technical, and physical safeguards to  
 protect against the transmission of  
 personally identifying information. At  
 point of registration, individuals will be  
 given full disclosure in a “privacy  
 statement” highlighting what  
 information will be collected. ISP  
 Partners will receive personally  
 identifying information about  
 volunteers to confirm the validity of the  
 information against their subscription  
 records, but will be bound by a non-  
 disclosure agreement that will maintain  
 various administrative, technical and  
 physical safeguards to protect the  
 information and limit its use. ISP  
 Partners providing support to the testing  
 program will likewise be bound to the  
 same series of administrative, technical  
 and physical safeguards developed by  
 SamKnows. In addition all third parties  
 supporting the program directly will be

bound by a “Code of Conduct” to ensure  
 all participate and act in good faith.

Needs and Uses: The Commission  
 will submit this information collection  
 to the Office of Management and Budget  
 (OMB) after this 60-day comment period  
 in order to obtain the full three-year  
 clearance from them. The Commission  
 had requested emergency processing for  
 this revised collection on September 2,  
 2010. The Commission received OMB  
 approval on October 4, 2010. Emergency  
 OMB approvals are only granted for six  
 months. Therefore, the Commission is  
 now requesting approval of an extension  
 of this information collection (no  
 change in the reporting requirement or  
 third party disclosure requirements) to  
 keep the approval from lapsing.

The Broadband Data Improvement  
 Act of 2008, Public Law 110–385, Stat  
 4096 § 103(c)(1) directs the Commission  
 to collect information on the type of  
 technology used to provide broadband  
 to consumers, the price of such services,  
 actual transmission speeds, and the  
 reasons for non-adoption of broadband  
 service.

This collection of information was  
 necessary to complete research done for  
 the Broadband Plan on key consumer  
 issues including transparency and  
 actual speeds and performance of  
 broadband service.

This information collection was  
 revised to respond to new requirements  
 that were initially unforeseen. Recent  
 surveys demonstrate a majority of  
 consumers are not able to accurately  
 report the broadband service  
 information approved in the first  
 collection approved on April 30, 2010.

In recent discussions, broadband  
 service providers (ISPs) have also noted  
 that certain technical characteristics of  
 broadband service may vary region to  
 region and such information may not be  
 available from the consumer. ISP  
 Partners have offered to partner with the  
 FCC in the testing and measurement  
 trial by verifying certain consumer  
 information collected by SamKnows  
 and by providing associated data not  
 directly available from the consumer.  
 This information is crucial for good  
 sample selection and analysis of results.

The Commission’s Office of  
 Engineering and Technology (OET), the  
 Office of Strategic Planning and Policy  
 Analysis (OSPPA) and the Consumer  
 and Governmental Affairs Bureau (CGB)  
 and other Commission entities will use  
 the information collected under this  
 study to assess what actual broadband  
 speeds and performance consumers are  
 currently receiving from providers. Our  
 purpose is to measure the speed of  
 broadband services provided by ISPs  
 across service packages and

geographies, rather than assess the  
 differences in broadband performance  
 received by demographics. This  
 assessment will help the Commission  
 create standards for broadband  
 measurements, assess the validity of ISP  
 performance claims, and inform future  
 steps to increasing transparency and  
 consumer awareness of broadband  
 service.

Federal Communications Commission.

Marlene H. Dortch,  
 Secretary.
