SUPPLEMENTARY INFORMATION:

Background

On December 10, 2010 (75 FR 77476), we published a proposed rule to list the Arctic, Okhotsk, Baltic, and Ladoga subspecies of the ringed seal as threatened under the ESA. Based on the status of these subspecies, we also proposed protective regulations pursuant to section 4(d) of the ESA for these subspecies to include all of the prohibitions in section 9(a)(1) of the ESA. The original due date for comments on these proposed actions (February 8, 2011) was extended to March 25, 2011 (76 FR 6754; February 8, 2011).

Public Hearings

Joint Commerce-Interior ESA implementing regulations state that the Secretary shall promptly hold at least one public hearing if any person requests one within 45 days of publication of a proposed regulation to list a species or to designate critical habitat (*see* 50 CFR 424.16(c)(3)). In response to requests from various parties to hold public hearings in a number of locations in Alaska, we will hold three public hearings: One in Anchorage, one in Barrow, and one in Nome. We will accept oral and written comments on both the proposed rule for ringed seals and the proposed rule for bearded seals (75 FR 77496; December 10, 2010) during these hearings.

People wishing to make an oral statement for the record at a public hearing are encouraged to provide a written copy of their statement and present it to us at the hearing. In the event that attendance at the public hearings is large, the time allotted for oral statements may be limited. Oral and written statements receive equal consideration. There are no limits on the length of written comments submitted to us.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Red Snapper Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues this proposed rule that would implement a regulatory amendment to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP) prepared by the Gulf of Mexico Fishery Management Council (Council). This proposed rule would increase the commercial and recreational quotas for red snapper in the Gulf of Mexico (Gulf) reef fish fishery for the 2011 fishing year, provided that NMFS determines the total allowable catch (TAC) was not exceeded in the 2010 fishing year. This rule also proposes minor revisions to codified text, including revisions to the definition of "actual ex-vessel value," extending the maintenance window for the Gulf individual fishing quota (IFQ) programs, and removing obsolete

codified text for Gulf grouper. The intended effect of this proposed rule is to help achieve optimum yield (OY) for Gulf red snapper without increasing the risk of the red snapper resource experiencing overfishing, allow for better functioning and enforcement of the Gulf IFQ programs, and to implement a technical correction to the regulations.

DATES: Written comments must be received on or before March 24, 2011.

ADDRESSES: You may submit comments on the proposed rule, identified by 0648-BA54, by any of the following methods:

• **Electronic submissions:** Submit electronic comments via the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
