Jeffrey Claypool, Federal Aviation Administration, Operations Support Group, Central Service Center, 10101 Hillwood Parkway, Fort Worth, TX 76177; telephone (817) 222-5711.

SUPPLEMENTARY INFORMATION:**History**

The FAA published a final rule in the **Federal Register** (89 FR 16447; March 7, 2024), amending the Class E airspace at Ebensburg, PA. Subsequent to publication, the FAA identified that the final rule was published with the incorrect agency docket number. This action corrects this error by replacing the incorrect agency docket number, FAA-2023-2341, with the correct one, FAA-2023-2431.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, Amendment of Class E Airspace; Ebensburg, PA, published in the **Federal Register** on March 7, 2024 (89 FR 16447), is corrected as follows:

In FR Doc. 2024-04826, on page 16447, in the first column, in the document headings, amend the agency docket number to read, “[Docket No. FAA-2023-2431; Airspace Docket No. 23-AEA-26]”.

Issued in Fort Worth, Texas, on March 11, 2024.

Steven T. Phillips,

*Acting Manager, Operations Support Group,
ATO Central Service Center*

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2023-2027; Airspace
Docket No. 23-ANM-15]

RIN 2120-AA66

**Establishment of Class E Airspace;
Antone Ranch Airport, Mitchell, OR
(64OG)**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace extending upward from 700 feet above the surface at Antone Ranch Airport, Mitchell, OR, in support of the airport’s transition from visual flight rules (VFR) to instrument flight rules (IFR) operations.

DATES: Effective date 0901 UTC, May 16, 2024. Director of the Federal Register

approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11H, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace to support IFR operations at Antone Ranch Airport, Mitchell, OR.

History

The FAA published a Notice of Proposed Rulemaking for Docket No. FAA-2023-2027 in the **Federal Register** (88 FR 72407; October 20, 2023), proposing to establish Class E airspace at Antone Ranch Airport, Mitchell, OR. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Differences From the NPRM

Subsequent to the NPRM publication, the FAA identified typographical errors within the airspace docket number and proposed legal description. Within line three of the legal description text header, the longitudinal coordinate reads 119°50’38” W, but it should read 119°50’39” W instead. Within the legal description body, the word “airport” was used twice without the appropriate punctuation to show possession. Lastly, the airspace docket number reads, in part, AMN, but it should read ANM instead. These changes are reflected within the final rule.

Incorporation by Reference

The Class E5 airspace designation is published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface at Antone Ranch Airport, Mitchell, OR, in support of the airport’s transition from VFR to IFR operations.

The airspace extends 8.4 miles east and 10.4 miles west and northwest of the airport reference point to contain departing and missed approach IFR operations until reaching 1,200 feet above the surface on the Runway (RWY) 7 and RWY 25 RIFTE ONE (OBSTACLE) Area Navigation (RNAV) departures, and the RNAV (Global Positioning System [GPS]) M RWY 25 missed approach. Additionally, this airspace contains arriving IFR operations below 1,500 feet above the surface on the RNAV (GPS) M RWY 25 approach.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11H, Airspace Designations and Reporting Points, dated August 11, 2023, and effective September 15, 2023, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM WA E5 Mitchell, OR [New]

Antone Ranch Airport, OR
(Lat. 44°29′34″ N, long. 119°50′39″ W)

That airspace extending upward from 700 feet above the surface within 2.2 miles either side of the 098° bearing extending to the airport’s 8.4-mile radius, and within 2.2 miles either side of the 278° bearing extending to the airport’s 10.4-mile radius, and within an area bounded by a line beginning at the 290° bearing at 10.4 miles,

then clockwise along the airport’s 10.4-mile radius to the 317° bearing, to the 327° bearing at 7.1 miles, to the 310° bearing at 4.1 miles, thence to the point of beginning.

* * * * *

Issued in Des Moines, Washington, on March 6, 2024.

B.G. Chew,

*Group Manager, Operations Support Group,
Western Service Center.*

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace to support the safety and management of IFR operations at Green River Municipal Airport, Green River, UT.

History

The FAA published a notice of proposed rulemaking for Docket No. FAA–2023–2175 in the **Federal Register** (88 FR 85523; December 8, 2023), proposing to establish Class E airspace at Green River Municipal Airport, Green River, UT. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Differences From the NPRM

The final rule adds language excluding R–6413 special use airspace from the airport’s legal description when active. That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the airport, from the 145° bearing clockwise to the 278° bearing within 6.8 miles southwest of the airport, and from the 278° bearing clockwise to the 337° bearing within 8.5 miles northwest of the airport excluding R–6413 when active. This exclusionary language was inadvertently omitted from the proposed rule.

Incorporation by Reference

Class E5 airspace area is published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available as listed in the **ADDRESSES**
