(2) *Title of the Form/Collection:* Registration for Classification as a Refugee.

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: Form I–590; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals or households. The Form I–590 is the primary document in all refugee case files and becomes part of the applicant's A-file. It is the application form by which a person seeks refugee classification and resettlement in the United States. It documents an applicant's legal testimony (under oath) as to his or her identity and claim to refugee status, as well as other pertinent information including marital status, number of children, military service, organizational memberships, and violations of law. In addition to being the application form submitted by a person seeking refugee classification, Form I–590 is used to document that an applicant was interviewed by United States Citizenship and Immigration Services (USCIS) and record the decision by the USCIS Officer to approve or deny the applicant for classification as a refugee. Regardless of age, each person included in the case must have his or her own Form I-590. Refugees applying to CBP for admission must have a stamped I–590 in their travel packet in order to gain admission as a refugee. They do not have refugee status until they are admitted by CBP.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection I–590 is 50.000 and the estimated hour burden per response is 3.25 hours. The estimated total number of respondents for the information collection of Request for Review is 1,500 and the estimated hour burden per response is 1 hour. The estimated total number of respondents for the information collection of DNA Evidence is 100 and the estimated hour burden per response is 2 hours. The estimated total number of respondents for the information collection of Biometrics is 51,600 and the estimated hour burden per response is 0.33 hour.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 181,228 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is \$12,000.

Dated: June 19, 2019.

Samantha L. Deshommes,

Chief, Regulatory Coordination Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security.

Endangered Species; Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered species under the Endangered Species Act of 1973, as amended. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive written data or comments on the applications by July 25, 2019.

ADDRESSES:

Reviewing Documents: Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act. Submit a request for a copy of such documents to Karen Marlowe (see FOR FURTHER INFORMATION CONTACT).

Submitting Comments: If you wish to comment, you may submit comments by one of the following methods:

• *U.S. mail or hand-delivery:* U.S. Fish and Wildlife Service Regional Office, Ecological Services, 1875 Century Boulevard, Atlanta, GA 30345 (Attn: Karen Marlowe, Permit Coordinator).

• *Email: permitsR4ES@fws.gov.* Please include your name and return address in your email message. If you do not receive a confirmation from the U.S. Fish and Wildlife Service that we have received your email message, contact us directly at the telephone number listed in FOR FURTHER INFORMATION CONTACT.

FOR FURTHER INFORMATION CONTACT:

Karen Marlowe, Permit Coordinator, 404–679–7097 (telephone), *karen_ marlowe@fws.gov* (email), or 404–679– 7081 (fax). Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We invite review and comment from local. State. and Federal agencies and the public on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activities. The ESA's definition of "take" includes hunting, shooting, harming, wounding, or killing, and also such activities as pursuing, harassing, trapping, capturing, or collecting.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
