The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* Tacoma Power requests Commission approval to continue to allow five parcels of leased land to be used as private community parks (Division 1 Park, Division 2 Park, Division 4 Park, Division 9 Park, and Division 14 Park). These parcels are leased to the Lake Cushman Development Company which created the parks to serve nearby residents who provide funds to operate the parks. Prior to the July 30, 1998 relicensing, which modified the project boundary, these parks were located entirely outside of the project boundary. Since portions of the parks were incorporated into the project boundary when the new license was issued, Tacoma Power filed a non-project use of project lands application to keep the parks private.

Agencies may obtain copies of the application directly from the applicant.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.
