Defense Science Board

AGENCY: Department of Defense.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Defense Science Board Task Force on Munitions System Reliability will meet in closed session on September 23-24, 2004, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. This Task Force will review the efforts thus far to improve the reliability of

munitions systems and identify additional steps to be taken to reduce the amount of unexploded ordnance resulting from munitions failures. The Task Force will: Conduct a methodologically sound assessment of the failure rates of U.S. munitions in actual combat use; review ongoing efforts to reduce the amount of unexploded ordnance resulting from munitions systems failures, and evaluate whether there are ways to improve or accelerate these efforts; and identify other feasible measures the U.S. can take to reduce the threat that failed munitions pose to friendly forces and noncombatants.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will: Conduct a methodologically sound assessment of the failure rates of U.S. munitions in actual combat use; review ongoing efforts to reduce the amount of unexploded ordnance resulting from munitions systems failures, and evaluate whether there are ways to improve or accelerate these efforts; and identify other feasible measures the U.S. can take to reduce the threat that failed munitions pose to friendly forces and noncombatants.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. 2), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

SUMMARY: The Defense Science Board Task Force on Red Lessons Learned will meet in closed session on August 31, 2004, and September 21, 2004, at SAIC,

4001 N. Fairfax Drive, Arlington, VA. This Task Force will assess what useful information can our adversaries learn from U.S. military engagement and, particularly, what might they have learned from Operation Iraqi Freedom and Operation Enduring Freedom; identify the channels through which adversaries learn about U.S. capabilities; is there any evidence an adversary is adjusting to U.S. capabilities and what might the U.S. do to counter this; what are the indicators or observables that the Intelligence Community can focus on to determine if an adversary is engaging in this type of practice and do the indicators change in peacetime or wartime; do different technology insertion models exist; is there any evidence potential adversaries are targeting the seams in the U.S. command and control alignment and planning process; and the preceding areas of concern focus primarily on the military operations phases, are the potential adversaries observing, analyzing and adapting during the preparation and stabilization phase?

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense.
