**SUPPLEMENTARY INFORMATION:**

**I. Obtaining a Copy of the Proposed Consent Decree**

The official public docket for this action (identified by Docket ID No. EPA-HQ-OGC-2022-0200) contains a copy of the proposed consent decree.

The electronic version of the public docket for this action contains a copy of the proposed consent decree and is available through <https://www.regulations.gov>. You may use <https://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select "search."

**II. Additional Information About the Proposed Consent Decree**

The proposed consent decree would establish a June 3, 2022, deadline for EPA to establish the 2021 and 2022 renewable fuel standards (also known as renewable fuel obligations). EPA is obligated to establish the renewable fuel standards under 42 U.S.C. 7545(o)(3)(B)(i). The Agency was statutorily obligated to establish the 2021 renewable fuel standards by November 30, 2020, and to establish the

2022 renewable fuel standards by November 30, 2021. EPA proposed the renewable fuel standards for 2021 and 2022 on December 7, 2021. See 86 FR 72436 (published December 21, 2021). Under the proposed consent decree, EPA must sign the final rule establishing the 2021 and 2022 renewable fuel standards by June 3, 2022.

The same rule proposing the 2021 and 2022 renewable fuel standards also proposed to revise the 2020 renewable fuel standards, which EPA had previously finalized in a separate rulemaking. 85 FR 7016 (February 6, 2020) ("2020 Rule"). Growth Energy and other parties have challenged the 2020 Rule in the D.C. Circuit. *Growth Energy v. EPA*, No. 20-1113 (D.C. Cir.) (consolidated under lead case *RFS Power Coalition v. EPA*, No. 20-1046 (D.C. Cir.)).

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

**III. Additional Information About Commenting on the Proposed Consent Decree**

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2022-0200, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Do not submit to EPA's docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa->

*dockets*. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

##### II. Background

This cancellation order follows a December 7, 2021, **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit III, to voluntarily cancel these product registrations. In the December 7, 2021, notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments. The registration numbers below were listed in the December 7, 2021, notice but were listed in another request to cancel **Federal Register** notice so are not listed in this notice. The products and **Federal Register** Notice are: **Federal Register** of April 10, 2017 (82 FR 17253; FRL–9950–38): 241–383, 241–395, 241–410, 241–411, and 241–419. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

Section 4(i)(5) of FIFRA (7 U.S.C. 136a–1(i)(5)) requires that all pesticide registrants pay an annual registration maintenance fee, due by January 15 of each year, to keep their registrations in

effect. This requirement applies to all registrations granted under FIFRA section 3 (7 U.S.C. 136a) as well as those granted under FIFRA section 24(c) (7 U.S.C. 136v(c)) to meet special local needs. Registrations for which the fee is not paid are subject to cancellation by order and without a hearing.

Under FIFRA, the EPA Administrator may reduce or waive maintenance fees for minor agricultural use pesticides when it is determined that the fee would be likely to cause significant impact on the availability of the pesticide for the use.

In fiscal year 2021, maintenance fees were collected in one billing cycle. On December 1, 2020, all holders of either FIFRA section 3 registrations or FIFRA section 24(c) registrations were sent lists of their active registrations, along with forms and instructions for responding. They were asked to identify which of their registrations they wished to maintain in effect, and to calculate and remit the appropriate maintenance fees. Most responses were received by the statutory deadline of January 15, 2021. A notice of intent to cancel was sent in September of 2021 to companies who did not respond and to companies who responded but paid for less than all their registrations. Since mailing the notices of intent to cancel, EPA has maintained a toll-free inquiry number through which the questions of affected registrants have been answered.

In fiscal year 2021, the Agency has waived the fees for 335 minor agricultural use registrations at the request of the registrants. Maintenance fees have been paid for about 17,467 FIFRA section 3 registrations, or about 98% of the registrations on file in October 2020. Fees have been paid for about 1,996 FIFRA section 24(c) registrations, or about 95% of the total on file in October 2020. Cancellations for non-payment of the maintenance fee affect 148 FIFRA section 3 registrations and 23 FIFRA section 24(c) registrations. These cancellations can be found in Table 4 below. Cancellations for companies paying the fee at one of the capped payment amounts are considered voluntary cancellations since the registration could be maintained without an additional fee payment. These cancellations are subject to a 30-day comment period and are listed in Table 1 below.

The cancellation orders generally permit registrants to continue to sell and distribute existing stocks of the canceled products until 1 year after the date on which the fee was due. Existing stocks already in the hands of dealers or users, however, can generally be distributed, sold, or used legally until they are
