

waybills, for a minimum period of four years.

(b) This file of retained waybills shall be maintained in such a manner that railroads may readily retrieve waybill copies using the waybill identifier code as shown on the submitted waybill record.

■ 5. Amend § 1244.7 by revising paragraph (a) to read as follows:

§ 1244.7 Special studies.

(a) Although routine submission of hard copy waybills is not required, the Board may order railroads to submit hard copies of the underlying waybills for special studies.

BILLING CODE 4915–01–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket Nos. 090206140–91081–03 and 120405260–4258–02; RTID 0648–XA455]

Revised Reporting Requirements Due to Catastrophic Conditions for Federal Seafood Dealers and Individual Fishing Quota Dealers in Portions of Louisiana and Texas

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; determination of catastrophic conditions.

SUMMARY: In accordance with the regulations implementing the individual fishing quota (IFQ) and Federal dealer reporting programs specific to the commercial reef fish fishery in the Gulf of Mexico (Gulf) and the coastal migratory pelagic (CMP) fisheries in the Gulf, the Regional Administrator (RA), Southeast Region, NMFS has determined that Hurricane Laura has caused catastrophic conditions in the Gulf for certain Louisiana parishes and Texas counties. This temporary rule authorizes any dealer in the affected area described in this temporary rule who does not have access to electronic reporting to delay reporting of trip tickets to NMFS and authorizes IFQ dealers within the affected area to use paper-based forms, if necessary, for basic required administrative functions, *e.g.*, landing transactions. This temporary rule is intended to facilitate continuation of IFQ and dealer reporting

operations during the period of catastrophic conditions.

DATES: The RA is authorizing Federal dealers and IFQ dealers in the affected area to use revised reporting methods from August 31, 2020, through October 5, 2020.

FOR FURTHER INFORMATION CONTACT:

Britni LaVine, telephone 727–551–5766. IFQ Customer Service, telephone: 866–425–7627, fax: 727–824–5308, email: SER-IFQ.Support@noaa.gov. For Federal dealer reporting, Fisheries Monitoring Branch, telephone: 305–361–4581.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf is managed under the Fishery Management Plan (FMP) for Reef Fish Resources of the Gulf of Mexico, prepared by the Gulf of Mexico Fishery Management Council (Gulf Council). The CMP fishery is managed under the FMP for CMP Resources in the Gulf of Mexico and Atlantic Region, prepared by the Gulf Council and South Atlantic Fishery Management Council. Both FMPs are implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

The Generic Dealer Amendment established Federal dealer reporting requirements for federally permitted dealers in the Gulf and South Atlantic (79 FR 19490; April 9, 2014). Amendment 26 to the FMP established an IFQ program for the commercial red snapper component of the Gulf reef fish fishery (71 FR 67447; November 22, 2006). Amendment 29 to the FMP established an IFQ program for the commercial grouper and tilefish components of the Gulf reef fish fishery (74 FR 44732; August 31, 2009). Regulations implementing these IFQ programs (50 CFR 622.21 and 622.22) and the dealer reporting requirements (50 CFR 622.5(c)) require that Federal dealers and IFQ participants have access to a computer and internet and that they conduct administrative functions associated with dealer reporting and the IFQ program, *e.g.*, landing transactions, online. However, these regulations also specify that during catastrophic conditions, as determined by the RA, the RA may waive or modify the reporting time requirements for dealers and authorize IFQ participants to use paper-based forms to complete administrative functions for the duration of the catastrophic conditions. The RA must determine that catastrophic conditions exist, specify the duration of the catastrophic conditions, and specify which

participants or geographic areas are deemed affected.

Hurricane Laura made landfall in the U.S. near Cameron, Louisiana, in the Gulf as a Category 4 hurricane on August 27, 2020. Strong winds and flooding from this hurricane impacted communities throughout coastal Louisiana and Texas, resulting in power outages and damage to homes, businesses, and infrastructure. As a result, the RA has determined that catastrophic conditions exist in the Gulf for the Louisiana parishes of Saint Tammany, Orleans, Saint Bernard, Plaquemines, Jefferson, Saint Charles, Lafourche, Terrebonne, Saint Mary, Iberia, Vermilion, and Cameron; and for the Texas counties of Orange, Jefferson, Chambers, Harris, and Galveston.

Through this temporary rule, the RA is authorizing Federal dealers in these affected areas to delay reporting of trip tickets to NOAA Fisheries and IFQ dealers in this affected area to use paper-based forms, from August 31, 2020, through October 5, 2020. NMFS will provide additional notification to affected dealers via NOAA Weather Radio, Fishery Bulletins, and other appropriate means. NOAA Fisheries will continue to monitor and re-evaluate the areas and duration of the catastrophic conditions, as necessary.

Dealers may delay electronic reporting of trip tickets to NMFS during catastrophic conditions. Dealers are to report all landings to NMFS as soon as possible. Assistance for Federal dealers in affected area is available from the Fisheries Monitoring Branch at 1–305–361–4581. NMFS previously provided IFQ dealers with the necessary paper forms and instructions for submission in the event of catastrophic conditions. Paper forms are also available from the RA upon request. The electronic systems for submitting information to NMFS will continue to be available to all dealers, and dealers in the affected area are encouraged to continue using these systems, if accessible.

The administrative program functions available to IFQ dealers in the area affected by catastrophic conditions will be limited under the paper-based system. There will be no mechanism for transfers of IFQ shares or allocation under the paper-based system in effect during catastrophic conditions. Assistance in complying with the requirements of the paper-based system will be available via the Catch Share Support line, 1–866–425–7627 Monday through Friday, between 8 a.m. and 4:30 p.m., Eastern Time.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is consistent with the regulations in 50 CFR 622.5(c)(iii), 622.21(a)(3)(iii), and 622.22(a)(3)(iii) which were issued pursuant to section 304(b) of the Magnuson-Stevens Act, and are exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because this temporary rule is issued without opportunity for prior notice and comment.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive the requirements to provide prior notice and opportunity for public comment on this temporary rule. Such procedures are unnecessary because the final rules implementing the Gulf IFQ programs and the Gulf and Atlantic Federal dealer reporting have already been subject to notice and public comment. These rules authorize the RA to determine when catastrophic conditions exist, and which participants or geographic areas are deemed affected by catastrophic conditions. The final rules also authorize the RA to provide timely notice to affected participants via publication of notification in the **Federal Register**, NOAA Weather Radio, Fishery Bulletins, and other appropriate means. All that remains is to notify the public that catastrophic conditions exist and that paper forms may be utilized by IFQ dealers in the affected area and that Federal dealers may submit delayed reports. Additionally, delaying this temporary rule to provide prior notice and opportunity for public comment would be contrary to the public interest because affected dealers continue to receive these species in the affected area and need a means of completing their landing transactions. With the power outages and damages to infrastructure that have occurred in the affected area due to Hurricane Laura, numerous businesses are unable to complete landings transactions and dealer reports electronically. In order to continue with their businesses, IFQ dealers need to be aware they can still complete landing transactions and dealer reports using the paper forms.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 31, 2020.

Kelly Denit,

*Director, Office of Sustainable Fisheries
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 121004515–3608–02; RTID 0648–XA427]

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2020 Commercial Closure for South Atlantic Red Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements an accountability measure for red snapper in the exclusive economic zone (EEZ) of the South Atlantic. NMFS projects commercial landings of red snapper have reached the commercial annual catch limit (ACL) for the 2020 fishing year. Therefore, NMFS is closing the commercial sector for red snapper in the South Atlantic EEZ on September 5, 2020. This closure is necessary to protect the red snapper resource.

DATES: This temporary rule is effective from 12:01 a.m., eastern time, on September 5, 2020, through December 31, 2020.

FOR FURTHER INFORMATION CONTACT: Frank Helies, NMFS Southeast Regional Office, telephone: 727–824–5305, email: frank.helies@noaa.gov.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes red snapper and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The commercial ACL for red snapper in the South Atlantic is 124,815 lb (56,615 kg), round weight, as specified in 50 CFR 622.193(y)(1).

Under 50 CFR 622.193(y)(1), NMFS is required to close the commercial sector

for red snapper when the commercial ACL is reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that the commercial ACL for South Atlantic red snapper will be reached by September 5, 2020. Accordingly, the commercial sector for South Atlantic red snapper is closed effective at 12:01 a.m., eastern time, on September 5, 2020. For the 2021 fishing year, unless otherwise specified, the commercial season will begin on the second Monday in July (50 CFR 622.183(b)(5)(i)).

The operator of a vessel with a valid commercial vessel permit for South Atlantic snapper-grouper having red snapper on board must have landed and bartered, traded, or sold such red snapper prior to 12:01 a.m., eastern time, on September 5, 2020. Because the recreational sector closed on July 18, 2020 (85 FR 36165, June 15, 2020), after the commercial sector closure that is effective on September 5, 2020, all harvest and possession of red snapper in or from the South Atlantic EEZ is prohibited for the remainder of the 2020 fishing year.

On and after the effective date of the closure notification, all sale or purchase of red snapper is prohibited. This prohibition on the harvest, possession, sale or purchase apply in the South Atlantic on a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, regardless if such species were harvested or possessed in state or Federal waters (50 CFR 622.193(y)(1) and 622.181(c)(2)).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 622.193(y)(1), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The Assistant Administrator for NOAA Fisheries (AA) finds that the need to immediately implement this action to close the commercial sector for red snapper constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such procedures are
